

Base Prospectus dated 17 May 2023

ENGIE

(incorporated with limited liability in the Republic of France) as Issuer

€30,000,000,000 Euro Medium Term Note Programme

Under the Euro Medium Term Note Programme described in this Base Prospectus (the “**Programme**”), ENGIE (“**ENGIE**” or the “**Issuer**”), subject to compliance with all relevant laws, regulations and directives, may from time to time issue Euro Medium Term Notes (the “**Notes**”). The aggregate nominal amount of Notes outstanding will not at any time exceed €30,000,000,000 (or the equivalent in other currencies). Subject to compliance with all relevant laws, regulations and directives, Notes may be issued in euro, U.S. dollar, Japanese yen, Swiss franc, Sterling and in any other currency agreed between ENGIE and the relevant Dealers.

This Base Prospectus shall be in force for a period of one (1) year as of the date of its approval by the *Autorité des marchés financiers* (the “**AMF**”).

This document constitutes a base prospectus (the “**Base Prospectus**”) for the purposes of Article 8 of Regulation (EU) 2017/1129, as amended (the “**Prospectus Regulation**”) in respect of, and for the purposes of giving information with regard to, ENGIE and its fully consolidated subsidiaries taken as a whole (the “**Group**”), which is necessary to enable investors to make an informed assessment of the assets and liabilities, financial position, profit and losses and prospects of ENGIE, the rights attaching to the Notes and the reason for the issuance and its impact on the ENGIE.

This Base Prospectus has been approved by the AMF in France in its capacity as competent authority pursuant to the Prospectus Regulation. The AMF only approves this Base Prospectus as meeting the standards of completeness, comprehensibility and consistency imposed by the Prospectus Regulation. Such approval should not be considered as an endorsement of the Issuer or of the quality of the Notes which are the subject of this Base Prospectus. Investors should make their own assessment as to the suitability of investing in the Notes.

Application may be made to Euronext Paris for the period of twelve (12) months from the date of approval by the AMF of this Base Prospectus for Notes issued under the Programme to be admitted to trading on the regulated market of Euronext Paris and/or to the listing authority of any other Member State of the European Economic Area (“**EEA**”) for Notes issued under the Programme to be admitted to trading on a Regulated Market (as defined below) in such Member State. Euronext Paris is a regulated market for the purposes of the Markets in Financial Instruments Directive 2014/65/EU of 15 May 2014, as amended, appearing on the list of regulated markets issued by the European Securities and Markets Authority (the “**ESMA**”) (a “**Regulated Market**”).

However, Notes may be issued under the Programme that are listed on other stock exchanges (whether on a Regulated Market or not) or are not admitted to trading. The relevant final terms (the “**Final Terms**”) (a form of which is contained herein) in respect of the issue of any Notes will specify whether or not such Notes will be admitted to trading and, if so, the relevant stock exchange.

Notes will be in such denomination(s) as may be specified in the relevant Final Terms, save that the minimum denomination of each Note admitted to trading on a Regulated Market will be €100,000, and if the Notes are denominated in a currency other than euro, the equivalent amount in such currency, or such higher amount as may be allowed or required from time to time by the relevant central bank (or equivalent body) or any laws or regulations applicable to the relevant specified currency. Notes may be issued either in dematerialised form (the “**Dematerialised Notes**”) or in materialised form (the “**Materialised Notes**”) as more fully described herein. Dematerialised Notes will at all times be in book-entry form in compliance with Articles L.211-3 *et seq.* and R.211-1 *et seq.* of the French *Code monétaire et financier*. No physical documents of title will be issued in respect of the Dematerialised Notes. Materialised Notes will be in bearer form only and may only be issued outside France and the United States. A temporary global certificate in bearer form without interest coupons attached (a “**Temporary Global Certificate**”) will initially be issued in connection with Materialised Notes. No interest will be payable on the Temporary Global Certificate. Such Temporary Global Certificate will be exchanged for definitive Materialised Notes in bearer form with, where applicable, coupons for interest attached on or after a date expected to be on or about the fortieth (40th) calendar day after the issue date of the Notes upon certification as to non U.S. beneficial ownership as more fully described herein. Temporary Global Certificates will (a) in the case of a Tranche (as defined below) intended to be cleared through Euroclear Bank SA/NV (“**Euroclear**”) and/or Clearstream Banking S.A. (“**Clearstream**”), be deposited on the issue date with a common depository on behalf of Euroclear and/or Clearstream and (b) in the case of a Tranche intended to be cleared through a clearing system other than or in addition to Euroclear and/or Clearstream or delivered outside a clearing system, be deposited as agreed between the Issuer and the relevant Dealer(s) (as defined below).

The Programme has been rated BBB+ by S&P Global Ratings Europe Limited (“**S&P**”) and A- by Fitch Ratings Ireland Limited (“**Fitch**”) and the senior unsecured notes and short term notes of the Issuer under this Programme have been assigned a rating of Baa1 and P-2 respectively by Moody’s France SAS (“**Moody’s**”). As at the date of this Base Prospectus, ENGIE is rated Baa1/P-2 with stable outlook by Moody’s, BBB+ with stable outlook/A-2 by S&P and Fitch has assigned it a long-term issuer default rating of A- (stable outlook) and a short term issuer default rating of F1. Each of S&P, Moody’s and Fitch is established in the European Union and is registered under Regulation (EC) No 1060/2009 (as amended) (the “**CRA Regulation**”). Each of S&P, Moody’s and Fitch is included in the list of registered credit rating agencies published by the ESMA on its website (www.esma.europa.eu/credit-rating-agencies/cra-authorisation) in accordance with the CRA Regulation. Notes issued under the Programme may be unrated or rated differently from the current ratings of ENGIE. The relevant Final Terms will specify whether or not such credit ratings are (i) issued by a credit rating agency established in the European Union and registered under the CRA Regulation and/or (ii) issued or endorsed by a credit rating agency established in the United Kingdom and registered under CRA Regulation (EU) No 1060/2009 as it forms part of domestic law of the United Kingdom by virtue of the European Union (Withdrawal) Act 2018 (the “**UK CRA Regulation**”) or certified under the UK CRA Regulation. A rating is not a recommendation to buy, sell or hold securities and may be subject to suspension, change or withdrawal at any time by the assigning rating agency.

The final terms of the Notes will be determined at the time of the offering of each Tranche and will be set out in the relevant Final Terms.

The Base Prospectus, the documents incorporated by reference therein, any supplement thereto and the relevant Final Terms will be available as described in the section entitled “Documents on Display” herein and in the relevant Final Terms.

Prospective investors should carefully review and consider the section of this Base Prospectus entitled “Risk Factors” prior to purchasing any Notes.

This Base Prospectus should be read and construed in conjunction with any supplement hereto and with any other documents incorporated by reference (see “Documents Incorporated by Reference”), each of which shall be incorporated in, and form part of this Base Prospectus in relation to any Series (as defined herein) of Notes, and should be read and construed together with the relevant Final Terms, the Base Prospectus and the Final Terms being together, the “Prospectus”.

No person has been authorised to give any information or to make any representation other than those contained in this Base Prospectus in connection with the issue or sale of the Notes and, if given or made, such information or representation must not be relied upon as having been authorised by the Issuer or any of the Dealers or the Arranger (each as defined in “General Description of the Programme”). Neither the delivery of this Base Prospectus nor any sale made in connection herewith shall, under any circumstances, create any implication that there has been no adverse change in the affairs of the Issuer or those of the Group since the date hereof or the date upon which this Base Prospectus has been most recently supplemented or that there has been no adverse change in the financial position of the Issuer or that of the Group since the date hereof or the date upon which this Base Prospectus has been most recently supplemented or that any other information supplied in connection with the Programme is correct as of any time subsequent to the date on which it is supplied or, if different, the date indicated in the document containing the same.

Other than in relation to the documents which are deemed to be incorporated by reference (see “*Documents Incorporated by Reference*”), the information on the websites to which this Base Prospectus refers does not form part of this Base Prospectus, unless that information is incorporated by reference into the Base Prospectus, and has not been scrutinised or approved by the AMF.

The distribution of this Base Prospectus and the offering or sale of the Notes in certain jurisdictions may be restricted by law. Persons into whose possession this Base Prospectus comes are required by the Issuer, the Dealers and the Arranger to inform themselves about and to observe any such restriction.

PROHIBITION OF SALES TO EEA RETAIL INVESTORS – The Notes are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the European Economic Area (the “EEA”). For these purposes, a retail investor means a person who is one (or both) of: (i) a retail client as defined in point (11) of Article 4(1) of Directive 2014/65/EU, as amended (“MiFID II”); or (ii) a customer within the meaning of Directive (EU) 2016/97, as amended, where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II. Consequently, no key information document required by Regulation (EU) No 1286/2014, as amended (the “PRIIPs Regulation”) for offering or selling the Notes or otherwise making them available to retail investors in the EEA has been or will be prepared and therefore offering or selling the Notes or otherwise making them available to any retail investor in the EEA may be unlawful under the PRIIPs Regulation.

PROHIBITION OF SALES TO UK RETAIL INVESTORS – The Notes are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the United Kingdom (the “UK”). For these purposes, a retail investor means a person who is one (or both) of: (i) a retail client, as defined in point (8) of Article 2 of Regulation (EU) No 2017/565 as it forms part of UK domestic law by virtue of the European Union (Withdrawal) Act 2018 (“EUWA”); or (ii) a customer within the meaning of the provisions of the Financial Services and Markets Act 2000, as amended (“FSMA”) and any rules or regulations made under the FSMA to implement Directive (EU) 2016/97, where that customer would not qualify as a professional client, as defined in point (8) of Article 2(1) of Regulation (EU) No 600/2014 as it forms part of UK domestic law by virtue of the EUWA. Consequently, no key information document required by Regulation (EU) No 1286/2014 as it forms part of UK domestic law by virtue of the EUWA (the “UK PRIIPs Regulation”) for offering or selling the Notes

or otherwise making them available to retail investors in the UK has been prepared and therefore offering or selling the Notes or otherwise making them available to any retail investor in the UK may be unlawful under the UK PRIIPs Regulation.

MIFID II PRODUCT GOVERNANCE / TARGET MARKET – The Final Terms in respect of any Notes may include a legend entitled “MiFID II Product Governance” which will outline the target market assessment in respect of the Notes, taking into account the five (5) categories referred to in item 18 of the Guidelines published by the European Securities and Markets Authority (“ESMA”) on 5 February 2018 and which channels for distribution of the Notes are appropriate, determined by the manufacturer(s). Any person subsequently offering, selling or recommending the Notes (a “distributor” as defined in MiFID II) should take into consideration such determination; however, a distributor subject to MiFID II is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the manufacturer’s target market assessment) and determining appropriate distribution channels.

A determination will be made in relation to each issue about whether, for the purpose of the MiFID II product governance rules under EU Delegated Directive 2017/593 (the “MiFID II Product Governance Rules”), any Dealer subscribing for any Notes is a manufacturer in respect of such Notes, but otherwise neither the Arranger nor the Dealers nor any of their respective affiliates will be a manufacturer for the purpose of the MiFID II Product Governance Rules. For the avoidance of doubt, the Issuer is not an investment firm as defined by MiFID II and will not be a manufacturer in respect of any Notes issued under the Programme.

UK MiFIR PRODUCT GOVERNANCE / TARGET MARKET – The Final Terms in respect of any Notes may include a legend entitled “UK MiFIR Product Governance” which will outline the target market assessment in respect of the Notes, taking into account the five categories referred to in item 18 of the Guidelines published by ESMA on 5 February 2018 (in accordance with the FCA’s policy statement entitled “*Brexit our approach to EU non-legislative materials*”), and which channels for distribution of the Notes are appropriate, determined by the manufacturer(s). Any person subsequently offering, selling or recommending the Notes (a “distributor”) should take into consideration such determination; however, a distributor subject to FCA Handbook Product Intervention and Product Governance Sourcebook (the “UK MiFIR Product Governance Rules”) is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the manufacturer’s target market assessment) and determining appropriate distribution channels. A determination will be made in relation to each issue about whether, for the purpose of the UK MiFIR Product Governance Rules, any Dealer subscribing for any Notes is a manufacturer in respect of such Notes, but otherwise neither the Arranger nor the Dealers nor any of their respective affiliates will be a manufacturer for the purpose of the UK MiFIR Product Governance Rules.

SINGAPORE SFA PRODUCT CLASSIFICATION – In connection with Section 309B(1)(c) of the Securities and Futures Act 2001 of Singapore (the “SFA”) and the Securities and Futures (Capital Markets Products) Regulations 2018 of Singapore (the “CMP Regulations 2018”), unless otherwise specified before an offer of Notes, the Issuer has determined, and hereby notifies all relevant persons (as defined in Section 309A(1) of the SFA), that the Notes are prescribed capital markets products (as defined in the CMP Regulations 2018) and Excluded Investment Products (as defined in MAS Notice SFA 04-N12: Notice on the Sale of Investment Products and MAS Notice FAA-N16: Notice on Recommendations on Investment Products).

This Base Prospectus does not constitute an offer of, or an invitation by or on behalf of the Issuer or the Dealers or the Arranger to subscribe for, or purchase, any Notes.

No action has been taken by the Issuer or the Dealers which would permit a public offering of any Notes or distribution of this Base Prospectus in any jurisdiction where action for that purpose is required other than in compliance with Article 1.4 of the Prospectus Regulation. Accordingly, no Notes may be offered or sold, directly or indirectly, and neither this Base Prospectus nor any Final Terms or other offering material may be distributed or published in any jurisdiction, except under circumstances that will result in compliance with any applicable laws and regulations and the Dealers have represented that all offers and sales by them will be made on the same terms. Persons into whose possession this Base Prospectus comes are required by the Issuer, the Dealers and the Arranger to inform themselves about and to observe any such restriction.

THE NOTES HAVE NOT BEEN AND WILL NOT BE REGISTERED UNDER THE U.S. SECURITIES ACT OF 1933, AS AMENDED (THE “SECURITIES ACT”) NOR WITH ANY SECURITIES REGULATORY AUTHORITY OF ANY STATE OR OTHER JURISDICTION OF THE UNITED STATES AND INCLUDE NOTES IN BEARER FORM THAT ARE SUBJECT TO U.S. TAX LAW REQUIREMENTS. SUBJECT TO CERTAIN EXCEPTIONS, NOTES MAY NOT BE OFFERED, SOLD OR DELIVERED WITHIN THE UNITED STATES OR TO, OR FOR THE ACCOUNT OR BENEFIT OF, U.S. PERSONS (AS DEFINED IN THE SECURITIES ACT). FOR A DESCRIPTION OF CERTAIN RESTRICTIONS ON OFFERS AND SALES OF NOTES AND ON DISTRIBUTION OF THIS BASE PROSPECTUS, SEE “SUBSCRIPTION AND SALE”.

Neither this Base Prospectus nor any Final Terms constitutes an offer of, or an invitation by or on behalf of the Issuer, the Dealers or the Arranger to subscribe for, or purchase, any Notes.

The Arranger and the Dealers have not separately verified the information contained or incorporated by reference in this Base Prospectus. None of the Dealers or the Arranger makes any representation, express or implied, or accepts any responsibility, with respect to the accuracy or completeness of any of the information or for any acts or omissions of the Issuer or any other person in connection with this Base Prospectus. Neither this Base Prospectus nor any other information incorporated by reference in this Base Prospectus is intended to provide the basis of any credit or other evaluation and should not be considered as a recommendation by the Issuer, the Arranger or the Dealers that any recipient of this Base Prospectus or any Final Terms or any other information incorporated by reference should subscribe for or purchase the Notes. In making an investment decision regarding the Notes, prospective investors must rely on their own independent investigation and appraisal of the Issuer, its business and the terms of the offering, including the merits and risks involved. For further details, see “**Risk Factors**” herein. The contents of this Base Prospectus or any Final Terms are not to be construed as legal, business or tax advice. Each prospective investor should subscribe for or consult its own advisers as to legal, tax, financial, credit and related aspects of an investment in the Notes. None of the Dealers or the Arranger undertakes to review the financial condition or affairs of the Issuer or the Group during the life of the arrangements contemplated by this Base Prospectus nor to advise any investor or potential investor in the Notes of any information coming to the attention of any of the Dealers or the Arranger.

Potential purchasers and sellers of the Notes should be aware that they may be required to pay taxes or documentary charges or duties in accordance with the laws and practices of the jurisdiction where the Notes are transferred or other jurisdictions. Payments of interest and other amounts under the Notes may also be subject to taxation. In some jurisdictions, no official statements of the tax authorities or court decisions may be available for the tax treatment of innovative financial notes such as the Notes. The tax impact on an individual Noteholder may differ from the situation for Noteholders generally. Potential investors are advised to ask for their own tax adviser’s advice on their individual taxation with respect to the acquisition, holding, disposal and redemption of the Notes. Only these advisers are in a position to duly consider the specific situation of the potential investor.

The consolidated financial statements of ENGIE for the years ended 31 December 2022 and 31 December 2021 have been prepared in accordance with International Financial Reporting Standards (“IFRS”) and endorsed by the European Union.

Credit ratings

One or more independent credit rating agencies may assign credit ratings to the Notes. The ratings may not reflect the potential impact of all risks related to structure, market, additional factors discussed in this section, and other factors that may affect the value of the Notes. A credit rating is not a recommendation to buy, sell or hold securities and may be revised or withdrawn by the rating agency at any time.

As at the date of this Base Prospectus, ENGIE has been assigned the following long-term credit ratings/short-term credit ratings: Baa1/P-2 with stable outlook by Moody’s France SAS, BBB+ with stable outlook/A-2 by S&P Global Ratings Europe Limited and Fitch Ratings Ireland Limited has assigned it a long-term issuer default rating of A- (stable outlook) and a short term issuer default rating of F1.

Independent Review and Advice

Each prospective investor of Notes must determine, based on its own independent review and such professional advice as it deems appropriate under the circumstances, that its acquisition of the Notes is fully consistent with its financial needs, objectives and condition, complies and is fully consistent with all investment policies, guidelines and restrictions applicable to it and is a fit, proper and suitable investment for it, notwithstanding the clear and substantial risks inherent in investing in or holding the Notes. Each prospective investor of Notes should consult their own financial and legal advisers about risks associated with investment in a particular Series of Notes and the suitability of investing in the Notes in light of their particular circumstances.

A prospective investor may not rely on the Issuer, the Arranger or the Dealer(s) or any of their respective affiliates in connection with its determination as to the legality of its acquisition of the Notes or as to the other matters referred to above.

Conflicts of Interest

All or some of the Dealers and their respective affiliates have and/or may in the future engage, in investment banking, commercial banking and other financial advisory and commercial dealings with the Issuer and its affiliates and in relation to securities issued by any entity of the Group. They have or may (i) engage in or perform on behalf of the Issuer and any other entity of the Group investment, banking, trading or hedging activities including activities that may include prime brokerage business, financing transactions or entry into derivative transactions or other transactions aiming at managing their exposure and/or their general market risk, (ii) deal or make market in the Notes issued under the Programme, (iii) act as underwriters in connection with offering of shares or other securities issued by any entity of the Group or (iv) act as financial advisers to the Issuer or other companies of the Group. In the context of these transactions, certain of such Dealers or their respective affiliates have or may hold shares or other securities issued by entities of the Group. Where applicable, they have or will receive customary fees and commissions for these transactions.

Where there is a lending relationship between the Issuer and one or several Dealers, all or part of the proceeds of an issue of Notes may, or may not, potentially be used to repay or reimburse all or part of such loans. Certain of the Dealers or their respective affiliates that have a lending relationship with the Issuer routinely hedge their credit exposure to the Issuer consistent with their customary risk management policies. Typically, such Dealers and their respective affiliates would hedge such exposure by entering into transactions which consist of either the purchase of credit default swaps or the creation of short positions in securities, including potentially the Notes issued under the Programme. The Dealers and their respective affiliates may also make investment recommendations and/or publish or express independent research views in respect of such securities or financial instruments and may hold, or recommend to clients that they acquire, long and/or short positions in such securities and instruments.

The Issuer may from time to time be engaged in transactions involving an index or related derivatives which may affect the market price, liquidity or value of the Notes and which could be deemed to be adverse to the interests of the Noteholders.

Potential conflicts of interest may arise between the Calculation Agent, if any, for a Series of Notes and the Noteholders (including where a Dealer acts as a calculation agent), including with respect to certain discretionary determinations and judgments that such Calculation Agent may make pursuant to the Terms and Conditions of the Notes that may influence the amount receivable by the Noteholders during the term of the Notes and upon redemption of the Notes.

Legality of Purchase

Neither the Issuer, the Arranger, the Dealer(s) nor any of their respective affiliates has or assumes responsibility for the lawfulness of the acquisition of the Notes by a prospective investor of the Notes, whether under the laws of the jurisdiction of its incorporation or the jurisdiction in which it operates (if different), or for compliance by that prospective investor with any law, regulation or regulatory policy applicable to it.

Important notice relating to Inflation Linked Interest Notes

Inflation Linked Interest Notes are not in any way sponsored, endorsed, sold or promoted by the INSEE and the INSEE makes no warranty or representation whatsoever, express or implied, either as to the results to be obtained from the use of the Inflation Index and/or the figure at which such index stands at any particular time. The Inflation Index is determined, composed and calculated by the INSEE, without regard to the Issuer or the Notes. The INSEE is not responsible for and has not participated in the determination of the timing of, prices of, or quantities of the Inflation Linked Interest Notes to be issued or in the determination or calculation of the interest payable under such Notes.

None of the Issuer, the Dealer(s) or any of their respective affiliates makes any representation as to the Inflation Index. Any of such persons may have acquired, or during the term of the Notes may acquire, non-public information with respect to the Inflation Index that is or may be material in the context of Inflation Linked Interest Notes. The issue of Inflation Linked Interest Notes will not create any obligation on the part of any such persons to disclose to the Noteholder or any other party such information (whether or not confidential).

Neither the current nor the historical level of the Inflation Index should be taken as an indication of future performance of such index during the term of any Inflation Linked Interest Notes.

Important notice relating to Green Bonds

Prospective investors should have regard to the information set out in the “*Use of Proceeds*” section of the Final Terms and must determine for themselves the relevance of such information for the purpose of any investment in the Green Bonds together with any other investigation such investor deems necessary. In particular, no assurance is given by the Issuer that the use of an amount equal to such proceeds for any Eligible Green Projects will satisfy, whether in whole or in part, any present or future investor expectations or requirements as regards any investment criteria or guidelines with which such investor or its investments are required to comply, whether by any present or future applicable law or regulations or by its own by-laws or other governing rules or investment portfolio mandates, in particular with regard to any direct or indirect environmental, sustainability or social impact of any projects or uses, the subject of or related to, any Eligible Green Projects.

The definition (legal, regulatory or otherwise) of, and market consensus for a particular project to be defined as, a “green” or equivalently labelled project is currently under development. On 18 December 2019, the Council and the European Parliament reached a political agreement on a regulation to establish a framework to facilitate sustainable development. On 18 June 2020, Regulation (EU) No. 2020/852 on the establishment of a framework to facilitate sustainable investment was adopted by the Council and the European Parliament (the “**Taxonomy Regulation**”). The Taxonomy Regulation establishes a single EU-wide classification system, or

“taxonomy”, which provides companies and investors with a common language for determining which economic activities can be considered environmentally sustainable. Commission Delegated Regulation (EU) 2021/2139 of 4 June 2021 supplementing the Taxonomy Regulation by establishing the technical screening criteria for determining the conditions under which an economic activity qualifies as contributing substantially to climate change mitigation or climate change adaptation and for determining whether that economic activity causes no significant harm to any of the other environmental objectives (the “**Climate Delegated Acts**”) entered into force on 1st January 2022. However, further development of the Taxonomy Regulation will take place concerning certain specific economic activities and concerning other environmental objectives, in particular the adoption of the delegated regulation establishing the technical screening criteria for the four remaining other environmental objectives with respect to “sustainable use and protection of water and marine resources”, “transition to circular economy”, “pollution prevention and control” and “protection and restoration of biodiversity and ecosystems” following the European Commission consultation which ended on 3 May 2023. Although certain definitions and technical eligibility criteria from the Green Financing Framework are based on the Climate Delegated Acts, when relevant, the Green Financing Framework is not fully aligned with the Taxonomy Regulation. The Green Financing Framework is also further based on the 2018 Green Bond Principles voluntary guidelines published by the International Capital Market Association, market practices and expert opinions.

No assurance is or can be given to investors that any Eligible Green Projects will meet any or all investor expectations regarding such objectives or that any adverse environmental, social and/or other impacts will not occur during the implementation of any Eligible Green Projects.

No assurance or representation is given as to the suitability or reliability for any purpose whatsoever of the second party opinion (the “**Second Party Opinion**”) or any opinion or certification of any third party (whether or not solicited by the Issuer) which may be made available in connection with the issue of the Green Bonds and in particular with any Eligible Green Projects to fulfil any environmental, sustainability, social and/or other criteria. Such Second Party Opinion, or any opinion or certification, is not, nor should be deemed to be, a recommendation by the Issuer, the Dealers or any other person to buy, sell or hold any such Notes. As a result, neither the Issuer nor the Dealers will be, or shall be deemed, liable for any issue in connection with its content. For the avoidance of doubt, neither the Second Party Opinion, nor any such other opinion or certification is, or shall be deemed to be, incorporated in and/or form part of this Base Prospectus.

Floating Rate Notes:	<p>Floating Rate Notes will bear interest determined separately for each Series as follows:</p> <ul style="list-style-type: none"> (i) on the same basis as the floating rate under a notional interest rate swap transaction in the relevant specified currency governed by an agreement incorporating the 2021 ISDA Definitions as published by the International Swaps and Derivatives Association, Inc.; or (ii) by reference to EURIBOR, EUR CMS, EUR CMS combination formula, €STR or SONIA (or such other benchmark as may be specified in the relevant Final Terms), in each case as adjusted for any applicable margin. <p>Interest periods will be specified in the relevant Final Terms.</p>
Benchmark Discontinuation:	<p>Where Screen Rate Determination is specified in the relevant Final Terms as the manner in which the Rate of Interest is to be determined, but not in respect of €STR and SONIA, if a Benchmark Event occurs, then the Issuer shall use reasonable endeavours to appoint an Independent Adviser in accordance with Condition 5(c)(iii)(C) (<i>Benchmark Discontinuation</i>) of the Terms and Conditions of the Notes to determine a Replacement Reference Rate and any applicable Adjustment Spread. See Condition 5(c)(iii)(C) (<i>Benchmark Discontinuation</i>) of the Terms and Conditions of the Notes for further information.</p>
Fixed/Floating Rate Notes:	<p>Fixed/Floating Rate Notes may bear interest at a rate (i) that the Issuer may elect to convert on the date set out in the Final Terms from a Fixed Rate to a Floating Rate, or from a Floating Rate to a Fixed Rate or (ii) that will automatically change from a Fixed Rate to a Floating Rate or from a Floating Rate to a Fixed Rate on the date set out in the Final Terms.</p>
Zero Coupon Notes:	<p>Zero Coupon Notes may be issued at their nominal amount or at a discount to it and will not bear interest.</p>
Inflation Linked Interest Notes:	<p>Inflation Linked Interest Notes may be issued by the Issuer where the interest in respect of such Notes will be calculated by reference to an inflation index ratio derived from the consumer price index (excluding tobacco) for all households in metropolitan France, as calculated and published monthly by the <i>Institut National de la Statistique et des Etudes Economiques</i>.</p>

Residual Maturity Call Option:	<p>If a Residual Maturity Call Option is specified in the relevant Final Terms in respect of any issue of Notes, the Issuer may, at any time or from time to time,</p>

as from the Residual Maturity Call Option Date (as specified in the Final Terms) which shall be no earlier than a hundred and eighty (180) calendar days before the Maturity Date until the Maturity Date, redeem the Notes, in whole or in part, at par together with interest accrued to, but excluding, the date fixed for redemption.

- Optional redemption:** The Final Terms issued in respect of each issue of Notes will state whether such Notes may be redeemed prior to their stated maturity at the option of the Issuer (either in whole or in part) and/or the Noteholders and, if so, the terms applicable to such redemption
- Clean-up Call Option:** If so specified in the relevant Final Terms and if 75 per cent. or any other percentage above as specified in the relevant Final Terms (the “**Clean-up Call Percentage**”) of the initial aggregate nominal amount of Notes of the same Series have been redeemed or purchased by, or on behalf of, the Issuer or any of its subsidiaries and, in each case, cancelled, the Issuer may, at its option, redeem the Notes in whole but not in part at their Early Redemption Amount together with any interest accrued to, but excluding, the date set for redemption.
- Put Option in case of Change of Control:** If a Put Option in case of Change of Control is specified in the relevant Final Terms, and if a Put Event occurs, each Noteholder will have the option to require the Issuer to redeem or repurchase all or part of the Notes held by such Noteholder on the Put Date at their principal amount together with interest accrued up to but excluding such date of redemption or repurchase.
- Redemption by instalments:** The Final Terms issued in respect of each issue of Notes that are redeemable in two or more instalments will set out the dates on which, and the amounts in which, such Notes may be redeemed.
- Early redemption:** Except as provided in “Make-whole Redemption at the option of the Issuer”, “Residual Maturity Call Option”, “Optional redemption” and “Clean-up Call Option” above, Notes will be redeemable at the option of the Issuer prior to maturity only for tax reasons.
- Status of the Notes:** The Notes will constitute unconditional, unsubordinated and (subject to the provisions of the paragraph “Negative pledge” below) unsecured obligations of the Issuer and will rank *pari passu* without preference or priority among themselves and (save for certain obligations required to be preferred by law) equally and rateably with all other present or future unsecured and unsubordinated obligations, indebtedness and guarantees of the Issuer.
- Negative Pledge:** So long as any of the Notes or, if applicable, any receipts or coupons relating to them, remains outstanding, the Issuer [or, as the case may be, the Guarantor,] will not grant any mortgage (*hypothèque*), pledge or other form of security interest (*sûreté réelle*) which is not created over cash on any of its present or future tangible assets, intangible assets or revenues in each case for the benefit of holders of its other negotiable bonds, notes or debt securities [or, in the case of the Guarantor, for the benefit of other holders of negotiable bonds, notes or debt securities it guarantees, and in each case] having an original maturity of more than one (1) year, which are, or which are capable

of being, quoted, listed, or ordinarily dealt with on any stock exchange, without granting the same ranking security to the Notes.

None of the above shall prevent the Issuer [or, as the case may be, the Guarantor,] from securing any present or future indebtedness for the benefit of holders of other negotiable bonds, notes or debt instruments [or, in the case of the Guarantor, for the benefit of other holders of negotiable bonds, notes or debt securities it guarantees, and in each case] which are, or are capable of being, quoted, listed, or ordinarily dealt with on any stock exchange, where such indebtedness is incurred for the purpose of, and the proceeds thereof are used in, (i) the purchase of an asset and such security is provided over or in respect of such asset or (ii) the refinancing of any indebtedness incurred for the purpose of (i) above, provided that the security is provided over or in respect of the same asset.

Cross acceleration:

The Notes may become due and payable at their principal amount together with any accrued interest thereon if (i) the Issuer or the Guarantor, as the case may be, shall fail to make one or more payments when due or within any applicable grace period on any indebtedness for money borrowed or guarantee of the indebtedness for money borrowed of another party in an aggregate principal amount of at least Euro 250,000,000 (or, in each case, the equivalent in another currency) and (ii) (other than where the due date for such defaulted payment is the stated maturity) such indebtedness shall have been accelerated.

Events of Default:

The terms and conditions of the Notes contain events of default provisions as provided in Condition 9 (*Events of Default*) of the Terms and Conditions of the Notes.

Withholding tax:

All payments of principal, interest and other assimilated revenues by or on behalf of the Issuer in respect of the Notes, Receipts or Coupons shall be made free and clear of, and without withholding or deduction for, any taxes, duties, assessments or governmental charges of whatever nature imposed, levied, collected, withheld or assessed by or within France or any authority therein or thereof having power to tax, unless such withholding or deduction is required by law. If such a withholding or deduction is required, the Issuer will have to gross-up its payments to the fullest extent then permitted by law and subject to certain exceptions.

Substitution of the Issuer:

The Issuer may, at any time by way of novation or otherwise, transfer all (but not some only) of its rights, obligations and liabilities under the Notes (including any further notes issued in accordance with Condition 14 (*Further Issues and Consolidation*) of the Terms and Conditions of the Notes), Receipts and Coupons to a fully consolidated subsidiary of ENGIE or its successor at any time, subject to (except if such substituted Issuer is ENGIE) such obligations and liabilities being unconditionally and irrevocably guaranteed by ENGIE under an irrevocable and unconditional guarantee pursuant to an autonomous obligation (*garantie autonome*) of ENGIE, substantially in the form set out in the section entitled “Pro-forma of the Guarantee of ENGIE” of the Base Prospectus, and the Conditions shall thereupon apply to such substituted Issuer subject to certain conditions. References to “**Guarantor**” herein shall mean ENGIE, in its capacity as guarantor of Notes if there is a

substitution of the Issuer in accordance with Condition 16 (*Substitution of the Issuer*) of the Terms and Conditions of the Notes.

Rating:

The Programme (as defined below) has been rated BBB+ by S&P Global Ratings Europe Limited (“**S&P**”) and A- by Fitch Ratings Ireland Limited (“**Fitch**”) and the senior unsecured notes and short term notes of the Issuer under this Programme have been assigned a rating of Baa1 and P-2 respectively by Moody’s France SAS (“**Moody’s**”). ENGIE is currently rated Baa1/P-2 with stable outlook by Moody’s and BBB+ with stable outlook/A-2 by S&P and Fitch has assigned it a long-term issuer default rating of A- (stable outlook) and a short term issuer default rating of F1. Each of S&P, Moody’s and Fitch is established in the European Union and is registered under Regulation (EC) No 1060/2009, as amended (the “**CRA Regulation**”). Each of S&P, Moody’s and Fitch is included in the list of registered credit rating agencies published by the European Securities and Markets Authority on its website in accordance with the CRA Regulation.

Notes issued pursuant to the Programme may be unrated or rated differently from the current ratings of ENGIE. The relevant Final Terms will specify whether or not such credit ratings are (i) issued by a credit rating agency established in the European Union and registered under the CRA Regulation and/or (ii) issued or endorsed by a credit rating agency established in the United Kingdom and registered under CRA Regulation (EU) No 1060/2009 as it forms part of domestic law of the United Kingdom by virtue of the European Union (Withdrawal) Act 2018 (the “**UK CRA Regulation**”) or certified under the UK CRA Regulation. A rating is not a recommendation to buy, sell or hold securities and may be subject to suspension, change or withdrawal at any time by the assigning rating agency.

No offer to retail investors:

The Notes shall not be offered to retail investors in France, in the United Kingdom and/or in any other Member State of the EEA.

Governing Law:

The Notes and all non-contractual obligations arising out of or in connection with them, are governed by French law.

2 Risk Factors Relating to the Notes

The following paragraphs describe some of the risk factors that are material to the Notes to be admitted to trading in order to assess the market risk associated with these Notes.

Terms defined herein shall have the same meaning as in the Terms and Conditions of the Notes.

2.1 Risks Relating to the trading market of the Notes

Market Value of the Notes

Application may be made to list and admit any Series of Notes issued hereunder to trading on Euronext Paris and/or on any other Regulated Market (as the case may be and if a request for the notification of a certificate of approval has been made). Therefore, the market value of the Notes will be affected by the creditworthiness of the Issuer, and/or that of the Group and a number of additional factors, including, but not limited to, the volatility of an index, market interest and yield rates and the time remaining to the maturity date. If the creditworthiness of the Issuer deteriorates, (i) the Issuer may not be able to fulfil all or part of its payment obligations under the Notes and (ii) the value of the Notes may decrease, and Noteholders may lose all or part of their investment.

The value of the Notes depends on a number of interrelated factors, including economic, financial and political events in France or elsewhere, including factors affecting capital markets generally and Euronext Paris and/or any other Regulated Market (as the case may be and if a request for the notification of a certificate of approval has been made) or stock exchanges on which the Notes are traded. The price at which a Noteholder will be able to sell the Notes prior to maturity may be at a discount, which could be substantial, from the issue price or the purchase price paid by such Noteholder.

Liquidity Risks/Trading Market for the Notes

Application may be made to list and admit any Series of Notes issued hereunder to trading on Euronext Paris and/or on any other Regulated Market (as the case may be and if a request for the notification of a certificate of approval has been made). The Notes may not have an established trading market when issued. A secondary market for the Notes may not develop or, if one develops, there may be no continued liquidity of such market. The absence of liquidity may have a significant material adverse effect on the value of the Notes.

The development or continued liquidity of any secondary market for the Notes will be affected by a number of factors such as general economic conditions, the financial condition, the creditworthiness of the Issuer and/or the Group, and the value of any applicable reference rate, as well as other factors such as the complexity and volatility of the reference rate, the method of calculating the return to be paid in respect of such Notes, the time remaining to the maturity of the Notes, the outstanding amount of the Notes, any redemption features of the Notes as specified in Condition 6 (*Redemption, Purchase and Options*) of the Terms and Conditions of the Notes, direction and volatility of interest rates generally. Such factors also will affect the market value of the Notes. In addition, certain Notes may be designed for specific investment objectives or strategies and therefore may have a more limited secondary market and experience more price volatility than conventional debt securities.

Noteholders may not be able to sell Notes readily or at prices that will enable Noteholders to realise their anticipated yield. This could have a material adverse impact on the Noteholders and, as a result, Noteholders could lose all or part of their investment in the Notes.

Exchange Rate Risks and Exchange Controls

The Issuer will pay principal and interest on the Notes in the Specified Currency specified in the relevant Final Terms. This presents certain risks relating to currency conversions if an investor's financial activities are denominated principally in a currency or currency unit (the “**Investor's Currency**”) other than the Specified Currency. These include the risk that exchange rates may significantly change (including changes due to devaluation of the Specified Currency or revaluation of the Investor's Currency) and the risk that authorities with jurisdiction over the Investor's Currency may impose or modify exchange controls. An appreciation in the value of the Investor's Currency relative to the Specified Currency would decrease (1) the Investor's Currency-equivalent yield on the Notes, (2) the Investor's Currency-equivalent value of the principal payable on the Notes and (3) the Investor's Currency-equivalent market value of the Notes.

Government and monetary authorities have imposed from time to time, and may in the future impose, exchange controls that could adversely affect exchange rates, as well as the availability, of the specified currency in which a Note is payable at the time of payment of the principal or return in respect of such Note. As a result, Noteholders may receive less interest or principal than expected, or no interest or principal. This may result in a significant loss on any capital invested from the perspective of a Noteholder whose domestic currency is not the Specified Currency.

2.2 Risks related to the structure of a particular issue of Notes

The Terms and Conditions of the Notes allow for different types of Notes to be issued. Accordingly, each Tranche of Notes may carry varying risks for Noteholders depending on the specific features of such Notes such as, inter alia, the provisions for computation of periodic interest payments, if any, redemption and issue price.

2.2.1 Early Redemption Risks

Optional Redemption

The Final Terms for a particular Series of Notes may provide for early redemption at the option of the Issuer, in whole or in part, or in whole but not in part, as the case may be, under a make-whole call option as provided in Condition 6(c) (*Make-Whole Redemption by the Issuer*), a call option as provided in Condition 6(e) (*Redemption at the Option of the Issuer*), a residual maturity call option as provided in Clause 6(d) (*Residual Maturity Call Option*) or a clean-up call option as provided in Condition 6(j) (*Clean-up Call Option*) of the Terms and Conditions of the Notes.

Any optional redemption feature where the Issuer is given the right to redeem the Notes early might negatively affect the market value of such Notes. During any period when the Issuer may elect to redeem Notes, the market value of those Notes generally will not rise substantially above the price at which they can be redeemed. This also may be true prior to any redemption period. Furthermore, since the Issuer may be expected to redeem the Notes when prevailing interest rates are relatively low, a Noteholder might not be able to reinvest the redemption proceeds at an effective interest rate as high as the return that would have been received on such Notes had they not been redeemed.

If the market interest decrease, the risk to Noteholders that the Issuer will exercise its early redemption option increases. As a consequence, the yields received upon redemption may be lower than expected, and the redemption amount of the Notes may be lower than the purchase price for the Notes paid by the Noteholder. As a consequence, part of the capital invested by the Noteholder may be lost, so that the Noteholder in such case would not receive the total amount of the capital invested. In addition, Noteholders that choose to reinvest monies they receive through an early redemption may be able to do so only in securities with a lower yield than the

redeemed Notes. Should the Notes at such time be trading well above the price set for redemption, the negative impact on the Noteholders' anticipated returns would be significant.

In particular, with respect to the Clean-up Call Option, there is no obligation under the Condition 6(j) (*Clean-up Call Option*) of the Terms and Conditions of the Notes for the Issuer to inform Noteholders if and when the Clean-up Call Percentage (specified in the relevant Final Terms) has been reached or is about to be reached, and the Issuer's right to redeem will exist notwithstanding that immediately prior to the serving of a notice in respect of the exercise of the Clean-up Call Option, the Notes may have been trading significantly above par, thus potentially resulting in a loss of capital invested.

The Make-Whole Redemption by the Issuer, the Residual Maturity Call Option, the Redemption at the Option of the Issuer and the Put Option or the Put Option in case of Change of Control are exercisable in whole or in part and exercise of any such option in part only may affect the liquidity of the Series of Notes in respect of which such option is not exercised

The Make-Whole Redemption by the Issuer provided in Condition 6(c) (*Make-Whole Redemption by the Issuer*), the Residual Maturity Call Option provided in Condition 6(d) (*Residual Maturity Call Option*) and the Redemption at the Option of the Issuer provided in Condition 6(e) (*Redemption at the Option of the Issuer*) of the Terms and Conditions of the Notes are exercisable in whole or in part.

If the Issuer decides to redeem the Notes in part, such partial redemption may be effected, either by (i) application of a pool factor (corresponding to a reduction of the nominal amount of all such Notes in proportion to the aggregate nominal amount redeemed), in case of Dematerialised Notes or (ii) redeeming in full only some of the Notes, in case of Materialised Notes.

The Issuer could also be compelled to redeem the Notes (i) if the Noteholders decide to exercise their Put Option (if specified in the relevant Final Terms) (as defined in Condition 6(f) (*Redemption at the Option of the Noteholders and Exercise of the Noteholders' Options*)) of the Terms and Conditions of the Notes) or (ii) if the Noteholders decide to exercise their Put Option in case of Change of Control (if specified in the relevant Final Terms) and if a Change of Control (as defined in Condition 6(m) (*Redemption or purchase at the option of the Noteholders in case of Change of Control*)) of the Terms and Conditions of the Notes) were to occur. In such cases, if the Noteholders were to require from the Issuer the redemption of their Notes, the Issuer may not be able to pay the whole required amount. The Issuer's capacity to redeem the Notes will in particular depend on its financial situation at the time of the redemption and may be limited by any applicable legislation, by the conditions of its indebtedness and also by any new financings in place at that date and which shall replace, add or modify the existing or future debt of the Issuer. Furthermore, the Issuer's failure to redeem the Notes may result in an Event of Default (as defined in Condition 9 (*Events of Default*)) of the Terms and Conditions of the Notes) or of other indebtedness of the Issuer.

Depending on the proportion of the principal amount of all of the Notes so reduced, in case of Dematerialised Notes redeemed in part at the option of the Issuer or the number of Notes redeemed, in case of Dematerialised Notes redeemed at the option of the Noteholders or in case of Materialised Notes, any trading market in respect of those Notes in respect of which such option is not exercised may become illiquid.

2.2.2 Interest rate risks

Fixed Rate Notes

Condition 5(b) (*Interest on Fixed Rate Notes*) of the Terms and Conditions of the Notes allows for Fixed Rate Notes to be issued. Investment in Notes which bear interest at a fixed rate involves the risk that subsequent changes in market interest rates may adversely affect the market value of the relevant Series of Notes. In particular, a Noteholder, which pays interest at a fixed rate, is exposed to the risk that the market value of such Note could fall as a result of changes in the market interest rate. While the nominal interest rate of the fixed rate

Notes is fixed during the term of such Notes, the current interest rate on the capital markets (“**market interest rate**”) typically varies on a daily basis. As the market interest rate changes, the market value of the Fixed Rate Notes would typically change in the opposite direction. If the market interest rate increases, the market value of the Fixed Rate Notes would typically fall, until the yield of such Notes is approximately equal to the market interest rate. If the market interest rate falls, the market value of the Notes would typically increase, until the yield of such Notes is approximately equal to the market interest rate. The degree to which the market interest rate may vary presents a significant risk to the market value of the Notes if a Noteholder were to dispose of the Notes.

Floating Rate Notes

Condition 5(c) (*Interest on Floating Rate Notes and Inflation Linked Interest Notes*) of the Terms and Conditions of the Notes allows for Floating Rate Notes to be issued. Investment in Notes which bear interest at a floating rate comprise (i) a reference rate and (ii) a margin to be added or subtracted, as the case may be, from such reference rate. Typically, the relevant margin will not change throughout the life of the Notes but there will be a periodic adjustment (as specified in the relevant Final Terms) of the reference rate (e.g., every three months or six months) which itself will change in accordance with general market conditions. Accordingly, the market value of Floating Rate Notes may be volatile if changes, particularly short term changes, to market interest rates evidenced by the relevant reference rate can only be reflected in the interest rate of these Notes upon the next periodic adjustment of the relevant reference rate. These reference rates are not pre-defined for the lifespan of the Notes. Higher reference rates mean a higher interest under the Notes and lower reference rates mean a lower interest under the Notes. The degree to which the reference rates may vary is uncertain. The interest amount payable on any Interest Payment Date may be different from the amount payable on the initial or previous Interest Payment Date and may have a significant negative impact on the return under the Notes and result in a reduced market value of the Notes if a Noteholder were to dispose of its Notes.

Fixed/Floating Rate Notes

Condition 5(d) (*Fixed/Floating Rate Notes*) of the Terms and Conditions of the Notes allows for Fixed/Floating Rate Notes to be issued. Fixed/Floating Rate Notes may bear interest at a rate (i) that the Issuer may elect to convert from a fixed rate to a floating rate, or from a floating rate to a fixed rate or (ii) that will automatically change from a fixed rate to a floating rate, or from a floating rate to a fixed rate on the date set out in the relevant Final Terms. The Issuer’s ability to convert the interest rate will affect the secondary market and the market value of such Notes since the Issuer may be expected to convert the rate when it is likely to produce a lower overall cost of borrowing. If the Issuer converts from a fixed rate to a floating rate, the spread on the Fixed/Floating Rate Notes may be less favourable than then prevailing spreads on comparable Floating Rate Notes tied to the same reference rate. In addition, the new floating rate at any time may be lower than the rates on other Notes. If the Issuer converts from a floating rate to a fixed rate, the fixed rate may be lower than then prevailing rates on its Notes and any such volatility may have a significant adverse effect on the market value of the Notes.

Zero Coupon Notes

Condition 5(e) (*Zero Coupon Notes*) of the Terms and Conditions of the Notes allows for Zero Coupon Notes to be issued. Changes in market interest rates have a substantially stronger impact on the prices of Zero Coupon Notes than on the prices of ordinary notes because the discounted issue prices are substantially below par. If market interest rates increase, Zero Coupon Notes can suffer higher price losses than other notes having the same maturity and credit rating. Due to their leverage effect, Zero Coupon Notes are a type of investment associated with a particularly high price risk. Therefore, in similar market conditions the holders of Zero Coupon Notes could be subject to higher losses on their investments than the holders of other instruments such as Fixed Rate Notes or Floating Rate Notes. Any such volatility may have a significant adverse effect on the market value of the Notes.

Notes issued at a substantial discount or premium

The relevant Final Terms of a Tranche of Notes will specify the relevant issue price. The market values of securities issued at a substantial discount or premium from their principal amount tend to fluctuate more in relation to general changes in interest rates than do prices for conventional interest-bearing securities. Generally, the longer the remaining term of the securities, the greater the price volatility as compared to conventional interest-bearing securities with comparable maturities. Therefore, holders of Notes issued at a substantial discount or premium could be exposed to greater losses on their investment than holders of conventional interest-bearing securities.

Inflation Linked Interest Notes

Condition 5(c) (*Interest on Floating Rate Notes and Inflation Linked Interest Notes*) of the Terms and Conditions of the Notes allows for Inflation Linked Interest Notes to be issued. Inflation Linked Interest Notes are debt securities which do not provide for predetermined interest payments but amounts due in respect of interest will be dependent upon the performance of the consumer price index (excluding tobacco) for all households in metropolitan France, as calculated and published monthly by the *Institut National de la Statistique et des Etudes Economiques* (“INSEE”) (the “**Inflation Index**”). The amount of interest may vary and Noteholders may receive no interest. Noteholders are exposed to the risk that changes in the levels of the Inflation Index may adversely affect the value of Inflation Linked Interest Notes and as a result, Noteholders could lose part of their investment.

Notes indexed on CMS rates of two different maturities

Condition 5(c)(iii)(B)(d) of the Terms and Conditions of the Notes allows for Floating Rate Notes indexed on CMS rates of two different maturities to be issued. Investment in Notes which bear interest at a floating rate comprise (i) a reference rate or in the case of CMS linked interest, one or two (2) CMS reference rates, which may be added, subtracted or multiplied, and/or factored and (ii) a margin to be added or subtracted, as the case may be, from such base rate(s). There will be a periodic adjustment (as specified in the relevant Final Terms) of the reference rates (e.g., every three months or six months). Accordingly, the market value of such Notes may be volatile if changes to the reference rates can only be reflected in the interest rate of these Notes upon the next periodic adjustment of the relevant reference rate. The degree to which the reference rates may vary is uncertain. The interest amount payable on any Interest Payment Date may be different from the amount payable on the initial or previous Interest Payment Date and may negatively impact the return under the Notes and result in a reduced market value of the Notes if a Noteholder were to dispose of the Notes.

Reform of EURIBOR and regulation of other "benchmarks"

In accordance with the provisions of Condition 5 (*Interest and other Calculations*) of the Terms and Conditions of the Notes, the Rate of Interest in respect of the Floating Rate Notes may be determined by reference to Reference Rates that constitute benchmarks for the purposes of Regulation (EU) 2016/1011 of the European Parliament and of the Council of 8 June 2016 on indices used as benchmarks in financial instruments and financial contracts or to measure the performance of investment funds (as amended, the “**Benchmarks Regulation**”). The Benchmarks Regulation applies to the provision of “benchmarks”, the contribution of input data to a “benchmark” and the use of a “benchmark” within the EU. The Benchmarks Regulation was amended by Regulation (EU) 2021/168 of 10 February 2021, which (i) introduced a harmonised approach to deal with the cessation or wind-down of certain benchmarks by conferring on the Commission or competent national authorities the power to designate a statutory replacement for certain benchmarks, resulting in such benchmarks being replaced in contracts and financial instruments that have not been renegotiated before the date of cessation of the relevant benchmarks and contain either no contractual replacement (or so-called “fallback provision”) or a fallback provision which is deemed unsuitable by the Commission or competent national authorities; (ii)

extended the transitional provisions applicable to third-country benchmarks until the end of 2023; and (iii) empowered the Commission to further extend this transitional period until the end of 2025, if necessary.

The Benchmarks Regulation, among other things, (i) requires benchmark administrators to be authorised or registered (or, if non-EU-based, to be subject to an equivalent regime or otherwise recognised or endorsed) and to comply with extensive requirements in relation to the administration of “benchmarks” (or, if non-EU-based, to be subject to equivalent requirements) and (ii) prevents certain uses by EU supervised entities of “benchmarks” of administrators that are not authorised/registered (or, if non-EU-based, deemed equivalent or recognised or endorsed).

Notwithstanding the provisions of Condition 5(c)(iii)(C) (*Benchmark Discontinuation*) which seek to offset any adverse effects for the Noteholders, the Benchmarks Regulation could have an adverse effect on the market value and return of any Notes linked to a rate or index deemed to be a “benchmark”, in particular if the methodology or other terms of the “benchmark” are changed in order to comply with the requirements of the Benchmarks Regulation. Such changes could, among other things, have the effect of reducing, increasing or otherwise affecting the volatility of the published rate or level of the “benchmark”.

In the event of the occurrence of a Benchmark Event, modifications could be made to the Terms and Conditions of the Notes to implement the changes required by determining an alternative benchmark and, if applicable, adjustment spread, without the consent of the Noteholders in accordance with Condition 5(c)(iii)(C) (*Benchmark Discontinuation*) (see also “*Risks Relating to Benchmark Event*” below). Accordingly, the application of an adjustment spread and/or the use of an alternative benchmark may result in the Notes performing differently (which may include payment of a lower interest rate) than they would do if the Original Reference Rate were to continue to apply in its initial form.

More broadly, any of the international, national or other proposals for reform or the general increased regulatory scrutiny of “benchmarks” could increase the costs and risks of administering or otherwise participating in the setting of a “benchmark” and complying with any such regulations or requirements.

Such factors may have the following effects on certain “benchmarks” (i) discourage market participants from continuing to administer or contribute to certain “benchmarks”, (ii) trigger changes in the rules or methodologies used in certain “benchmarks” or (iii) lead to the disappearance of certain “benchmarks”.

Any of the foregoing changes and their potential consequences, as a result of international, national or other reforms, or investigations, could have a material adverse effect on the value of, and return on, any Notes linked to or referencing such “benchmarks”.

The market continues to develop in relation to risk free rates (including overnight rates) as reference rates for Floating Rate Notes

The market continues to develop in relation to risk free rates, such as the Euro short term rate (“€STR”), the Sterling Overnight Index Average (“SONIA”) and the Secured Overnight Financing Rates, as reference rates in the capital markets for euro, sterling or U.S. dollar bonds, as applicable, and their adoption as alternatives to the relevant interbank offered rates. The market or a significant part thereof may adopt an application of risk free rates that differs significantly from that set out in the Terms and Conditions and used in relation to Floating Rate Notes that reference a risk free rate issued under this Base Prospectus. The Issuer may in the future issue notes referencing €STR or SONIA, pursuant to Conditions 5(c)(iii)(B)(e) and 5(c)(iii)(B)(f) of the Terms and Conditions of the Notes, in a way that differs materially in terms of interest determination when compared with any previous notes issued by the Issuer referencing €STR or SONIA.

The development of the use of €STR or SONIA as interest reference rate for bond markets, as well as continued development of €STR- or SONIA-based rates for such markets and of the market infrastructure for adopting such rates, could result in reduced liquidity or increased volatility or could otherwise affect the market price of

the Notes. Interest on Notes which reference a risk free rate is only capable of being determined shortly prior to the relevant Interest Payment Date.

In addition, as €STR is published by the European Central Bank and SONIA is published by the Bank of England, the Issuer has no control over its determination, calculation or publication. €STR or SONIA may be discontinued or fundamentally altered in a manner that is materially adverse to the interests of Noteholders.

The mismatch between the adoption of such reference rates in the bond, loan and derivatives markets may impact any hedging or other financial arrangements which they may put in place in connection with any acquisition, holding or disposal of any Notes.

To the extent the €STR or SONIA reference rate is discontinued or is no longer published as described in the Terms and Conditions, the applicable rate to be used to calculate the Rate of Interest on the Notes will be determined using the alternative methods described in the Condition 5(c)(iii)(B)(e) of the Terms and Conditions of the Notes. Such methods may result in interest payments that are lower than, or do not otherwise correlate over time with, the payment that would have been made on the Notes if the €STR or SONIA reference rate had been provided by the European Central Bank or the Bank of England, as relevant, in its current form. Accordingly, an investment in any such Floating Rate Notes may entail significant risks not associated with similar investments in convention debt securities.

Risks Relating to Benchmark Event

Where Screen Rate Determination is specified in the relevant Final Terms as the manner in which the Rate of Interest is to be determined, but not in respect of €STR and SONIA, pursuant to Condition 5(c)(iii)(C) (*Benchmark Discontinuation*) of the Terms and Conditions of the Notes, if the Issuer (after consultation with the Calculation Agent) determines at any time prior to, on or following any Interest Determination Date that a Benchmark Event has occurred, the Issuer shall use reasonable endeavours to appoint (at its own cost) an Independent Adviser (as defined in Condition 5(c)(iii)(C) (*Benchmark Discontinuation*)). The Independent Adviser shall endeavour to determine a successor or replacement rate, and, acting in good faith, in a commercially reasonable manner to make necessary changes to the business day convention, the definition of business day, the interest determination date, the day count fraction and any method for calculating the replacement rate, including any adjustment factor needed to make such replacement rate comparable to the relevant reference rate.

Such replacement rate will (in the absence of manifest error) be final and binding, and no consent of the Noteholders shall be required in connection with effecting any replacement rate, any other related adjustments and/or amendments to the Terms and Conditions of the Notes (or any other document) which are made in order to effect such replacement rate.

The replacement rate may have no or very limited trading history and accordingly its general evolution and/or interaction with other relevant market forces or elements may be difficult to determine or measure, which could have an impact on the marketability and the liquidity of the Notes. In addition, given the uncertainty concerning the availability of a replacement rate and the involvement of an agent, the fallback provisions may not operate as intended at the relevant time and the replacement rate may perform differently from the Original Reference Rate. Any adjustment factor applied to the Notes may not adequately compensate such impact. This could in turn have a negative effect on the rate of interest on and trading value of the Notes.

If the Issuer is unable to appoint an Independent Adviser or if the Independent Adviser is unable to determine a replacement rate for any Interest Determination Date, no replacement rate or any other successor, replacement or alternative benchmark or screen rate will be adopted and the Original Reference Rate for the relevant Interest Period will be equal to the last Original Reference Rate available on the Screen Page as determined by the Calculation Agent. This could result in the effective application of a fixed rate to the Notes. As a consequence, the Noteholders may receive less than they would have received in the absence of a Benchmark Event.

2.3 Risks related to the legal form of the Notes and other legal issues

Specific French insolvency law provision regarding the rights of holders of debt securities

The Issuer is a *société anonyme* with its registered office in France. In the event that the Issuer becomes insolvent, insolvency proceedings will be generally governed by the insolvency laws of France to the extent that, where applicable, the “centre of main interests” (as construed under Regulation (EU) 2015/848, as amended) of the Issuer is located in France.

The Directive (EU) 2019/1023 on preventive restructuring frameworks, on discharge of debt and disqualifications, and on measures to increase the efficiency of procedures concerning restructuring, insolvency and discharge of debt, dated 20 June 2019, entered into force on 1 October 2021 and amends Directive (EU) 2017/1132. Directive (EU) 2019/1023 has been transposed into French law by the *Ordonnance* 2021-1193 dated 15 September 2021 and its implementation decree n°2021-1218 dated 23 September 2021 which amend French insolvency laws notably with regard to the process of adoption of restructuring plans under insolvency proceedings. According to this *Ordonnance*, “affected parties” (including notably creditors, and therefore the Noteholders) shall be treated in separate classes which reflect certain class formation criteria for the purpose of adopting a restructuring plan. Classes shall be formed in such a way that each class comprises claims or interests with rights that reflect a sufficient commonality of interest based on verifiable criteria. Noteholders will no longer deliberate on the proposed restructuring plan in a separate assembly, meaning that they will no longer benefit from a specific veto power on this plan. Instead, as any other affected parties, the Noteholders will be grouped into one or several classes (with potentially other types of creditors) and their dissenting vote may possibly be overridden by a cross-class cram down.

The decision of each class is taken by a two-third (2/3rd) majority of the voting rights of the participating members, no quorum being required.

For the avoidance of doubt, the provisions relating to the representation of Noteholders described in Condition 11 of the Terms and Conditions of the Notes will not be applicable to the extent that they are not in compliance with compulsory insolvency law provisions that apply in these circumstances.

The commencement of insolvency proceedings against the Issuer would have a material adverse effect on the market value of Notes. Any decisions taken by a class of affected parties could materially and negatively impact the Noteholders and cause them to lose all or part of their investment, should they not be able to recover amounts due to them from the Issuer.

The Issuer may be substituted by another entity

The Terms and Conditions of the Notes provide that the Issuer may, without the consent of the Noteholders and without regard to the interests of particular Noteholders, agree to the substitution of another company as the principal obligor under any Note in place of the Issuer, subject to the conditions set out in Condition 16 (*Substitution of the Issuer*) of the Terms and Conditions of the Notes. The identity or creditworthiness of the substitute entity may not be anticipated and the Issuer will not be required to have regard to any interests arising from the circumstances particular to any Noteholder with regard to or arising from any such substitution. The substitution is conditional, without limitation, on ENGIE guaranteeing the performance of the substitute’s obligations under the Notes pursuant to a guarantee the form of which is set out on pages 82 to 83 of this Base Prospectus, and the Issuer complying with the rules of any stock exchange (or any relevant authority) on which the Notes are for the time being listed or admitted to trading, including by publishing any prospectus, amendment, listing particulars or offering memorandum in connection therewith. Should the creditworthiness of ENGIE deteriorate, the value of the Notes may decrease, and Noteholders may lose all or part of their investment.

Credit Risk

As contemplated in Condition 3(a) (*Status of Notes*) of the Terms and Conditions of the Notes, the Notes and, where applicable, any relative Receipts and Coupons are unconditional, unsubordinated and (subject to the provisions of Condition 4 (*Negative Pledge*) of the Terms and Conditions of the Notes) unsecured obligations of the Issuer. However, an investment in the Notes involves taking credit risk on the Issuer. If the financial situation of the Issuer deteriorates, it may not be able to fulfil all or part of its payment obligations under the Notes, which could materially and negatively impact the Noteholders who may lose all or part of their investment.

Meeting of Noteholders, Modification and waivers

Condition 11 (*Meeting and Voting Provisions*) of the Terms and Conditions of the Notes contains provisions for calling meetings of Noteholders or for consulting Noteholders through Written Resolutions to consider matters affecting their interests generally, including without limitation the modification of the Terms and Conditions. These provisions permit in certain cases defined majorities to bind all Noteholders including Noteholders who did not attend (or were not represented) and vote at the relevant General Meeting, Noteholders who voted in a manner contrary to the majority and Noteholders who did not respond to, or rejected the relevant Written Resolution. If the relevant Final Terms specify “*No Masse*”, Noteholders will not be grouped in a *masse* having legal personality and will not be represented by a representative of the *masse*. Moreover, although Condition 11 (*Meeting and Voting Provisions*) provides that the contractual *Masse* will be governed by the provisions of the French *Code de commerce*, Condition 11 also provides for certain exclusions which may be less favourable for the Noteholders. Indeed, by exception to the legal *masse* regime provisions of the French *Code de Commerce*, Condition 11 (*Meeting and Voting Provisions*) provides that the provisions of Article L. 228-65 I 3° only in the case of the transfers of assets of the Issuer to any fully consolidated subsidiary of the Group for regulatory purpose, the second sentence of Article L. 228-65 II, the second sentence of the first paragraph of Article L. 228-71 and Article R. 228-69 (respectively providing for a prior approval of the General Meeting in case of merger (*fusion*) or demerger (*scission*) of the Issuer, for quorum and majority conditions applicable to the General Meeting, for management expenses decided by the General Meeting to be deducted from the interest paid to the Noteholders which amount may be fixed by court order, the convening notices period, the convening formalities on second notice or for an adjourned meeting and the related provisions of the French *Code de commerce*) shall not apply to the Notes. As a result of these exclusions, the prior approval of the Noteholders will not have to be obtained in case of transfer of assets under certain circumstances and the Issuer may determine specific quorum, majority and convening requirements as a result of which Noteholders may be bound by certain defined majorities and can be convened, including on second notice, within a short period of time, which may affect their interests generally.

In all cases, a decision to modify the Terms and Conditions adopted by a majority of the Noteholders could alter or limit the rights of the Noteholders. These elements may have a negative impact on the market value of the Notes and hence Noteholders may lose part of their investment.

The use of proceeds of the Notes identified as Green Bonds may not be suitable for the investment criteria of a Noteholder

The Final Terms relating to any specific Tranche of Notes may provide that it will be the Issuer’s intention to issue “green bonds” (the “**Green Bonds**”) and apply an amount equal to the net proceeds to finance and/or re-finance, in whole or in part, new or existing projects from any of the Eligible Green Projects, as defined in the “*Use of Proceeds*” section of the relevant Final Terms and further described in the Issuer’s green financing framework (as amended and supplemented from time to time) (the “**Green Financing Framework**”) available on the Issuer’s website (https://www.engie.com/sites/default/files/assets/documents/2020-03/engie-green-bond-framework-March%202020-version%20finale%20_0.pdf).

The definition (legal, regulatory or otherwise) of, and market consensus for a particular project to be defined as, a “green” or equivalently labelled project is currently under development. On 18 December 2019, the Council

and the European Parliament reached a political agreement on a regulation to establish a framework to facilitate sustainable development. On 18 June 2020, the Taxonomy Regulation was adopted by the Council and the European Parliament. The Taxonomy Regulation establishes a single EU-wide classification system, or “taxonomy”, which provides companies and investors with a common language for determining which economic activities can be considered environmentally sustainable. Climate Delegated Acts entered into force on 1st January 2022. However, further development of the Taxonomy Regulation will take place concerning certain specific economic activities and concerning other environmental objectives, in particular the adoption of the delegated regulation establishing the technical screening criteria for the four remaining other environmental objectives with respect to “sustainable use and protection of water and marine resources”, “transition to circular economy”, “pollution prevention and control” and “protection and restoration of biodiversity and ecosystems” following the European Commission consultation which ended on 3 May 2023.

While it is the intention of the Issuer to apply an amount equal to the proceeds of the Green Bonds in, or substantially in, the manner described in “*Use of Proceeds*”, the Eligible Green Projects may not be capable of being implemented in or substantially in such manner and/or in accordance with any timing schedule and that accordingly such proceeds may not be totally or partially disbursed for the Eligible Green Projects. Moreover, the Eligible Green Projects may not be completed within any specified period or at all or with the results or outcome (whether or not related to the environment) as originally expected or anticipated by the Issuer. Any such event or failure by the Issuer will not constitute an Event of Default under the Notes or a default of the Issuer for any purpose.

Any such event or failure and/or withdrawal of the Second Party Opinion or any such other opinion or certification may have a material adverse effect on the value and marketability of the Green Bonds and/or result in adverse consequences for Noteholders with portfolio mandates to invest in securities to be used for a particular purpose.

SUPPLEMENT TO THE BASE PROSPECTUS

If at any time the Issuer is required to prepare a supplement to this Base Prospectus pursuant to the provisions of Article 23 of the Prospectus Regulation and Article 18 of Commission Delegated Regulation (EU) 2019/979, as amended, following the occurrence of a significant new factor, a material mistake or material inaccuracy relating to the information included or incorporated by reference in this Base Prospectus which may affect the assessment of any Notes, the Issuer will prepare and make available an appropriate supplement to this Base Prospectus or a restated Base Prospectus, which in respect of any subsequent issue of Notes or on a Regulated Market, shall constitute a supplement to the Base Prospectus for the purpose of the relevant provisions of the Prospectus Regulation.

TERMS AND CONDITIONS OF THE NOTES

The following is the text of the terms and conditions that, subject to completion in accordance with the provisions of the relevant Final Terms and excepting sentences in italics, shall be applicable to the Notes. In the case of Dematerialised Notes, the text of the terms and conditions will not be endorsed on physical documents of title but will be constituted by the following text as completed by the relevant Final Terms. In the case of Materialised Notes, either (i) the full text of these terms and conditions together with the relevant provisions of the Final Terms or (ii) these terms and conditions as so completed (and subject to simplification by the deletion of non-applicable provisions), shall be endorsed on Definitive Materialised Bearer Notes. All capitalised terms that are not defined in these Conditions will have the meanings given to them in the relevant Final Terms. References in the Conditions to “Notes” are to the Notes of one Series only, not to all Notes that may be issued under the Programme.

The Notes issued by ENGIE (the “**Issuer**”) are issued pursuant to an amended and restated agency agreement (as amended or supplemented from time to time, the “**Agency Agreement**”) dated 17 May 2023 between the Issuer, Citibank, N.A., London Branch as fiscal agent and the other agents named in it.

Dematerialised Notes shall be issued in one Specified Denomination only.

(d) **Redenomination**

- (i) The Issuer may (if so specified in the relevant Final Terms), on any Interest Payment Date, without the consent of the holder of any Note, Receipt, Coupon or Talon, by giving at least thirty (30) calendar days’ notice in accordance with Condition 15 and on or after the date on which the European Member State in whose national currency the Notes are denominated has become a participating Member State in the single currency of the European Economic and Monetary Union (as provided in the Treaty establishing the European Community, as amended from time to time (the “**Treaty**”)) or events have occurred which have substantially the same effects (in either case, “**EMU**”), redenominate all, but not some only, of the Notes of any Series into Euro and adjust the aggregate principal amount and the Specified Denomination(s) set out in the relevant Final Terms accordingly, as described below. The date on which such redenomination becomes effective shall be referred to in these Conditions as the “**Redenomination Date**”.
- (ii) The redenomination of the Notes pursuant to Condition 1(d)(i) shall be made by converting the principal amount of each Note from the relevant national currency into Euro using the fixed relevant national currency Euro conversion rate established by the Council of the European Union pursuant to Article 123 (4) of the Treaty and rounding the resultant figure to the nearest Euro 0.01 (with Euro 0.005 being rounded upwards). If the Issuer so elects, the figure resulting from conversion of the principal amount of each Note using the fixed relevant national currency Euro conversion rate shall be rounded down to the nearest euro. The Euro denominations of the Notes so determined shall be notified to Noteholders in accordance with Condition 15. Any balance remaining from the redenomination with a denomination higher than Euro 0.01 shall be paid by way of cash adjustment rounded to the nearest Euro 0.01 (with Euro 0.005 being rounded upwards). Such cash adjustment will be payable in Euro on the Redenomination Date in the manner notified to Noteholders by the Issuer.
- (iii) Upon redenomination of the Notes, any reference in the relevant Final Terms to the relevant national currency shall be construed as a reference to euro.
- (iv) The Issuer may, with the prior approval of the Redenomination Agent and the Consolidation Agent, in connection with any redenomination pursuant to this Condition or any consolidation pursuant to Condition 14, without the consent of the holder of any Note, Receipt, Coupon or Talon, make any changes or additions to these Conditions or Condition 14 (including, without limitation, any change to any applicable business day definition, business day convention, principal financial centre of the country of the Specified Currency, interest accrual basis or benchmark), taking into account market practice in respect of redenominated euromarket debt obligations and which it believes are not prejudicial to the interests of such holders. Any such changes or additions shall, in the absence of manifest error, be binding on the holders of Notes, Receipts, Coupons and Talons and shall be notified to Noteholders in accordance with Condition 15 as soon as practicable thereafter.

- (v) Neither the Issuer nor any Paying Agent shall be liable to the holder of any Note, Receipt, Coupon or Talon or other person for any commissions, costs, losses or expenses in relation to or resulting from the credit or transfer of Euro or any currency conversion or rounding effected in connection therewith.

(e) **Method of issue**

- VII. the relevant “**Calculation Period**” is as specified in the applicable Final Terms or, in the absence thereof, as defined in the ISDA Definitions for which purpose references to “Effective Date” and “Period End Date” (in the ISDA Definitions) shall be deemed to be to, respectively, the Issue Date and any last day of the last occurring Interest Accrual Period (as defined in these Conditions); and
- VIII. if the Floating Rate Option specified in the Final Terms is an Overnight Floating Rate Option and Compounding is specified as applicable in the applicable Final Terms:
 - the relevant Reset Date is the last day of the last occurring Interest Accrual Period, unless otherwise specified in the Final Terms;

- the Final Terms, or (y) if no number is specified as such in the Final Terms, the number specified as the “Lookback” for the relevant Floating Rate Option in the ISDA Definitions, or (z) if no such number is specified for the relevant Floating Rate Option, five (5);

For the purposes of this sub-paragraph (A), except as otherwise defined in such sub-paragraph, “**Calculation Agent**”, “**Compounding with Lockout**”, “**Compounding with Lookback**”, “**Compounding with Observation Period Shift**”, “**Delayed Payment**”, “**Designated Maturity**”, “**Effective Date**”, “**Floating Rate Option**”, “**Floating Rate**”, “**Lockout Period Business Day**”, “**Lockout**”, “**Lookback**”, “**Observation Period Shift**”, “**OIS Compounding**”, “**Overnight Floating Rate Option**”, “**Period End Date**”, “**Set in Advance**” and “**Swap Transaction**” have the meanings given to those terms in the ISDA Definitions.

For such purpose, references to “Relevant Rate” under the ISDA Definitions shall be deemed to be references to the ISDA Rate.

(B) Screen Rate Determination for Floating Rate Notes

- (a) Where Screen Rate Determination is specified in the relevant Final Terms as the manner in which the Rate of Interest is to be determined, the Rate of Interest for each Interest Accrual Period will, subject as provided below, be either:

- (1) the offered quotation; or
- (2) the arithmetic mean of the offered quotations,

(expressed as a percentage rate *per annum*) for the Reference Rate which appears or appear, as the case may be, on the Relevant Screen Page (or any other such page as may replace that page on the relevant service, or such other service as may be nominated as the information vendor, for the purpose of displaying comparable rates) as at either 11.00 a.m. (Brussels time) on the Interest Determination Date in question as determined by the Calculation Agent. If five or more of such offered

quotations are available on the Relevant Screen Page, the highest (or, if there is more than one such highest quotation, one only of such quotations) and the lowest (or, if there is more than one such lowest quotation, one only of such quotations) shall be disregarded by the Calculation Agent for the purpose of determining the arithmetic mean of such offered quotations.

If the Reference Rate from time to time in respect of Floating Rate Notes is specified hereon as being other than EURIBOR, the Rate of Interest in respect of such Notes will be determined as provided hereon.

- (b) if the Relevant Screen Page is not available or, if sub-paragraph (a)(1) applies and no such offered quotation appears on the Relevant Screen Page, or, if sub-paragraph (a)(2) applies and fewer than three such offered quotations appear on the Relevant Screen Page, in each case as at the time specified above, subject as provided below, the Calculation Agent shall request, the principal Euro-zone office of each of the Reference Banks, to provide the Calculation Agent with its offered quotation (expressed as a percentage rate *per annum*) for the Reference Rate at approximately 11.00 a.m. (Brussels time) on the Interest Determination Date in question. If two or more of the Reference Banks provide the Calculation Agent with such offered quotations, the Rate of Interest for such Interest Accrual Period shall be the arithmetic mean of such offered quotations as determined by the Calculation Agent; and
- (c) if paragraph (b) above applies and the Calculation Agent determines that fewer than two Reference Banks are providing offered quotations, subject as provided below, the Rate of Interest shall be the arithmetic mean of the rates *per annum* (expressed as a percentage) as communicated to (and at the request of) the Calculation Agent by the Reference Banks or any two or more of them, at which such banks were offered at approximately 11.00 a.m. (Brussels time) on the relevant Interest Determination Date, deposits in the Specified Currency for a period equal to that which would have been used for the Reference Rate by leading banks in the Euro-zone inter-bank market, as the case may be, or, if fewer than two of the Reference Banks provide the Calculation Agent with such offered rates, the offered rate for deposits in the Specified Currency for a period equal to that which would have been used for the Reference Rate, or the arithmetic mean of the offered rates for deposits in the Specified Currency for a period equal to that which would have been used for the Reference Rate, at which at approximately 11.00 a.m. (Brussels time) on the relevant Interest Determination Date, any one or more banks (which bank or banks is or are in the opinion of the Issuer suitable for such purpose) informs the Calculation Agent it is quoting to leading banks in the Euro-zone inter-bank market, as the case may be, provided that, if the Rate of Interest cannot be determined in accordance with the foregoing provisions of this paragraph, the Rate of Interest shall be determined as at the last preceding Interest Determination Date (though substituting, where a different Margin or Maximum or Minimum Rate of Interest is to be applied to the relevant Interest Accrual Period from that which applied to the last preceding Interest Accrual Period, the Margin or Maximum or Minimum Rate of Interest relating to the relevant Interest Accrual Period, in place of the Margin or Maximum or Minimum Rate of Interest relating to that last preceding Interest Accrual Period), except that if a Benchmark Event occurs, then the Reference Rate will be determined in accordance with Condition 5(c)(iii)(C) below.

- (d) Where Screen Rate Determination is specified in the relevant Final Terms as the manner in which the Rate of Interest is to be determined and the Reference Rate in respect of the Floating Rate Notes is specified as being the EUR CMS, the Rate of Interest for each Interest Accrual Period will, subject as provided below, be the offered quotation (expressed as a percentage rate *per annum*) for EUR CMS or for the combination based on EUR CMS as set out in the formula below, relating to the relevant maturity (the relevant maturity year mid swap rate in EUR (annual 30/360)), which appears on the Relevant Screen Page, being Reuters page “ISDAFIX 2” under the heading “EURIBOR Basis”, as at 11.00 a.m. Frankfurt time, in the case of the EUR-ISDA-EURIBOR Swap Rate-11:00 on the Interest Determination Date in question plus or minus (as indicated in the relevant Final Terms) the Margin (if any), all as determined by the Calculation Agent.

EUR CMS combination formula:

$$m \times \text{EUR CMS}[specify maturity] [+/-/\times] n \times \text{EUR CMS}[specify maturity]$$

Where each of “m” and “n” means the number specified in the relevant Final Terms.

Notwithstanding anything to the contrary in this Condition 5, in the event that the Reference Rate does not appear on the Relevant Screen Page, the Calculation Agent shall determine on the relevant Interest Determination Date the applicable rate based on quotations of five Reference Banks (to be selected by the Calculation Agent and the Issuer) for EUR CMS relating to the relevant maturity (in each case the relevant mid-market annual swap rate commencing two (2) T2 Business Days following the relevant Interest Determination Date). The highest and lowest (or, in the event of equality, one of the highest and/or lowest) quotations so determined shall be disregarded by the Calculation Agent for the purpose of determining the Reference Rate which will be the arithmetic mean (rounded if necessary to five significant figures with halves being rounded up) of such provided quotations.

If, for any reason, the Reference Rate is no longer published or if fewer than three quotations are provided to the Calculation Agent in accordance with the above paragraph, the Reference Rate will be determined by the Calculation Agent in its sole discretion, acting in good faith and in a commercial and reasonable manner.

- (e) When €STR is specified as the Reference Rate in the Final Terms in respect of the Floating Rate Notes, the Rate of Interest for each Interest Accrual Period will, subject as provided below, be the rate of return of a daily compound interest investment (with the daily euro short-term rate as the reference rate for the calculation of interest) plus or minus (as indicated in the applicable Final Terms) the Margin (if any) and will be calculated by the Calculation Agent on the relevant Interest Determination Date, as follows, and the resulting percentage will be rounded, if necessary, to the nearest one ten-thousandth of a percentage point, with 0.00005 being rounded upwards:

$$\left[\prod_{i=1}^{d_0} \left(1 + \frac{\text{€STR}_{i-p\text{TBD}} \times \Omega_i}{360} \right) - 1 \right] \times \frac{360}{d}$$

If the €STR is not published, as specified above, on any particular T2 Business Day and no €STR Index Cessation Event (as defined below) has occurred, the €STR for

such T2 Business Day shall be the rate equal to €STR in respect of the last T2 Business Day for which such rate was published on the Website of the European Central Bank.

If the €STR is not published, as specified above, on any particular T2 Business Day and both an €STR Index Cessation Event and an €STR Index Cessation Effective Date have occurred, the rate of €STR for each T2 Business Day in the relevant Observation Period on or after such €STR Index Cessation Effective Date will be determined as if references to €STR were references to the ECB Recommended Rate.

If no ECB Recommended Rate has been recommended before the end of the first T2 Business Day following the date on which the €STR Index Cessation Event occurs, then the rate of €STR for each T2 Business Day in the relevant Observation Period on or after the €STR Index Cessation Effective Date will be determined as if references to €STR were references to the Modified EDFR.

If an ECB Recommended Rate has been recommended and both an ECB Recommended Rate Index Cessation Event and an ECB Recommended Rate Index Cessation Effective Date subsequently occur, then the rate of €STR for each T2 Business Day in the relevant Observation Period occurring on or after that ECB Recommended Rate Index Cessation Effective Date will be determined as if references to €STR were references to the Modified EDFR.

Any substitution of the €STR, as specified above, will remain effective for the remaining term to maturity of the Notes and shall be published by the Issuer in accordance with Condition 15.

In the event that the Rate of Interest cannot be determined in accordance with the foregoing provisions by the Calculation Agent, (i) the Rate of Interest shall be that determined as at the last preceding Interest Determination Date (though substituting, where a different Margin or Maximum Rate of Interest or Minimum Rate of Interest is to be applied to the relevant Interest Accrual Period from that which applied to the last preceding Interest Accrual Period, the Margin or Maximum Rate of Interest or Minimum Rate of Interest relating to the relevant Interest Accrual Period in place of the Margin or Maximum Rate of Interest or Minimum Rate of Interest relating to that last preceding Interest Accrual Period) or (ii) if there is no such preceding Interest Determination Date, the Rate of Interest shall be determined as if the rate of €STR for each T2 Business Day in the relevant Observation Period on or after such €STR Index Cessation Effective Date were references to the latest published ECB Recommended Rate or, if EDFR is published on a later date than the latest published ECB Recommended Rate, the Modified EDFR.

$$\left(\prod_{i=1}^{d_0} \left(1 + \frac{\text{SONIA}_i \times n_i}{365} \right) - 1 \right) \times \frac{365}{d}$$

Where:

“**d**” is the number of calendar days in the relevant Observation Period;

“**d₀**” for any Observation Period, means the number of London Banking Days in the relevant Observation Period;

- (1) (i) the Bank of England’s Bank Rate (the “**Bank Rate**”) prevailing at close of business on the relevant London Banking Day; plus (ii) the mean of the spread of the SONIA to the Bank Rate over the previous five (5) days on which a SONIA has been published, excluding the highest spread (or, if there is more than one highest spread, one only of those highest spreads) and lowest spread (or, if there is more than one lowest spread, one only of those lowest spreads) to the Bank Rate (the “**SONIA Replacement Rate**”); or

Notwithstanding the paragraph above, in the event the Bank of England publishes

guidance as to (i) how the SONIA is to be determined or (ii) any rate that is to replace the SONIA, the Calculation Agent shall, to the extent that it is reasonably practicable, follow such guidance in order to determine SONIA for the purpose of the Notes for so long as the SONIA is not available or has not been published by the authorised distributors.

In the event that the Rate of Interest cannot be determined in accordance with the foregoing provisions by the Calculation Agent, (i) the Rate of Interest shall be that determined as at the last preceding Interest Determination Date (though substituting, where a different Margin or Maximum Rate of Interest or Minimum Rate of Interest is to be applied to the relevant Interest Accrual Period from that which applied to the last preceding Interest Accrual Period, the Margin or Maximum Rate of Interest or Minimum Rate of Interest relating to the relevant Interest Accrual Period in place of the Margin, Maximum Rate of Interest or Minimum Rate of Interest relating to that last preceding Interest Accrual Period) or (ii) if there is no such preceding Interest Determination Date, the initial Rate of Interest which would have been applicable to such Notes for the first Interest Accrual Period had the Notes been in issue for a period equal in duration to the scheduled first Interest Accrual Period but ending on, and excluding, the Interest Commencement Date (but applying the Margin and any Maximum Rate of Interest or Minimum Rate of Interest applicable to the first Interest Accrual Period).

If the Notes become due and payable in accordance with the Conditions, the final Interest Determination Date shall, notwithstanding any Interest Determination Date specified in the Final Terms, be deemed to be the date on which such Notes became due and payable and the Rate of Interest on such Notes shall, for so long as any such Notes remains outstanding, be that determined on such date.

(C) Benchmark discontinuation

- (a) Where Screen Rate Determination is specified in the relevant Final Terms as the manner in which the Rate of Interest is to be determined, but not in respect of €STR or SONIA, and notwithstanding anything to the contrary in Condition 5(c)(iii)(B) above, if the Issuer (in consultation with the Calculation Agent) determines in good faith at any time prior to, on or following any Interest Determination Date, that a Benchmark Event occurs in relation to the Original Reference Rate at any time prior to, on or following any Interest Determination Date, the Issuer shall use reasonable endeavours to appoint (at its own cost) an Independent Adviser as soon as reasonably practicable (and in any event prior to the next relevant Interest Determination Date), which, acting in good faith and in a commercially reasonable manner and as an independent expert in the performance of its duties, will determine if a substitute or successor rate is available for purposes of determining the Reference Rate on each Interest Determination Date falling on such date or thereafter that is substantially comparable to the Original Reference Rate.

In this context, the Independent Adviser will in particular determine if there is a rate that is formally recommended by a Relevant Nominating Body, which will be considered an industry accepted successor rate.

It is further specified that if there is two or more industry successor rates recommended by the above-mentioned authority, institution or working groups, the Independent Adviser shall determine which of those successor rates is most

appropriate for the purpose of formulating its advice to the Issuer, having regard to, inter alia, the particular features of the Notes and the nature of the Issuer. Following the foregoing, the Independent Adviser will determine a substitute or successor rate (such rate, the “**Replacement Reference Rate**”), for purposes of determining the Reference Rate for all relevant future payments of interest on the Notes.

Additionally, (i) the Independent Adviser will also determine in good faith changes (if any) to the business day convention, the definition of business day, the interest determination date, the day count fraction, and any method for obtaining the Replacement Reference Rate, including any adjustment factor needed to make such Replacement Reference Rate comparable to the Original Reference Rate (including any Adjustment Spread, and quantum of, or a formula or methodology for determining such Adjustment Spread), in each case in a manner that is consistent with industry-accepted practices for such Replacement Reference Rate; (ii) references to the Original Reference Rate in these Conditions will be deemed to be references to the Replacement Reference Rate, including any alternative method for determining such rate as described in (i) above; and (iii) the Issuer shall give notice as soon as reasonably practicable to the Noteholders (in accordance with Condition 15) and the Paying Agent(s) specifying the Replacement Reference Rate, as well as the details described in (i) above.

- (b) The determination of the Replacement Reference Rate and the other matters referred to above by the Independent Adviser will (in the absence of manifest error) be final and binding on the Fiscal Agent, the Calculation Agent, the Paying Agents and the Noteholders, unless the Independent Adviser, acting in good faith, in a commercially reasonable manner, considers at a later date that the Replacement Reference Rate is no longer substantially comparable to the Original Reference Rate or does not constitute an industry accepted successor rate, in which case the Issuer shall re-appoint an Independent Adviser (which may or may not be the same entity as the original Independent Adviser) for the purpose of advising the Issuer on confirming the Replacement Reference Rate or determining a substitute Replacement Reference Rate in an identical manner as described in this Condition 5(c)(iii)(C).
- (c) For the avoidance of doubt, the Fiscal Agent shall, at the direction and expense of the Issuer, effect such consequential amendments to the Agency Agreement and these Conditions as may be required in order to give effect to this Condition 5(c)(iii)(C). No Noteholder consent shall be required in connection with effecting the Replacement Reference Rate or such other changes pursuant to this Condition 5(c)(iii)(C), including for the execution of any documents or other steps by the Paying Agent(s) (if required).
- (d) Notwithstanding any other provision of this Condition 5(c)(iii)(C), if the Issuer is unable to appoint an Independent Adviser or if the Independent Adviser is unable to determine a Replacement Reference Rate for any Interest Determination Date, no Replacement Reference Rate or any other successor, replacement or alternative benchmark or screen rate will be adopted and the Reference Rate for the relevant Interest Period will be equal to the last Reference Rate available on the Screen Page as determined by the Calculation Agent.

In such circumstances, the Issuer will be entitled (but not obliged), at any time thereafter, to elect to re-apply the provisions of this Condition 5.3(c)(iii)(C), *mutatis*

mutandis, on one or more occasions until a Replacement Reference Rate or any other successor, replacement or alternative benchmark or screen rate (and, if applicable, any associated Adjustment Spread and/or any amendments) has been determined and notified in accordance with this Condition 5.3(c)(iii)(C) (and, until such determination and notification (if any), the fallbacks provisions provided elsewhere in these Terms and Conditions including, for the avoidance of doubt, the fallbacks specified in Condition 5.3(c)(iii)(B), will continue to apply according to their terms).

(iv) **Rate of Interest for Inflation Linked Interest Notes:**

(A) The Rate of Interest in respect of Inflation Linked Interest Notes (the “**Inflation Linked Interest**”) will be determined by the Calculation Agent on the following basis:

On the fifth (5th) Business Day before each Interest Payment Date (an “**Interest Determination Date**”) the Calculation Agent will calculate the Inflation Index Ratio.

The “**Inflation Index Ratio**” or “**IIR**” is the ratio between (i) the Daily Inflation Reference Index (as defined below) applicable upon any Interest Payment Date or the redemption date, as the case may be and (ii) the base reference defined as the Daily Inflation Reference Index (as defined below) applicable on the date specified in the relevant Final Terms (the “**Base Reference**”). Notwithstanding Condition 5(g)(iii), the IIR will be rounded if necessary to five significant figures (with halves being rounded up).

“**Daily Inflation Reference Index**” means (A) in relation to the first (1st) day of any given month, the CPI Monthly Reference Index of the third month preceding such month, and (B) in relation to a day (D) (other than the first day) in any given month (M), the linear interpolation of the CPI Monthly Reference Index pertaining respectively to the third month preceding such month (M - 3) and the second month preceding such month (M - 2) calculated in accordance with the following formula:

Daily Inflation Reference Index

$$= \text{CPI Monthly Reference Index}_{M-3} + \frac{D-1}{ND_M} \times (\text{CPI Monthly Reference Index}_{M-2} - \text{CPI Monthly Reference Index}_{M-3})$$

With:

“**ND_M**”: number of days in the relevant month M and, in the case of payment of principal and interest, shall be equal to 31;

“**D**”: actual day of payment in the relevant month M and, in the case of payment of principal and interest, shall be equal to 25;

“**CPI Monthly Reference Index_{M-2}**”: price index of month M - 2;

“**CPI Monthly Reference Index_{M-3}**”: price index of month M - 3.

Notwithstanding Condition 5(g)(iii), the Daily Inflation Reference Index will be rounded if necessary to five significant figures (with halves being rounded up).

For information purposes, such Daily Inflation Reference Index appears on the *Agence Française du Trésor* Reuters page OATINFLATION01 or on Bloomberg

TRESOR <GO> pages and on the website www.aft.gouv.fr. In the case of doubt in the interpretation of the methods used to calculate the Inflation Index Ratio, such methods shall be interpreted by reference to the procedures selected by the French Treasury (*Trésor*) for its *obligations assimilables du Trésor indexées sur l'inflation*.

“**CPI Monthly Reference Index**” refers to the definitive consumer price index excluding tobacco for all households in metropolitan France, as calculated and published monthly by the *Institut National de la Statistique et des Etudes Economiques* (“**INSEE**”) as such index may be adjusted or replaced from time to time as provided herein.

- (B) The calculation method described below is based on the recommendation issued by the French Bond Association (*Comité de Normalisation Obligataire* – www.cnofrance.org) in its July 2011 Paper entitled “Inflation-Linked Bonds”. In the case of any conflict between the calculation method provided below and the calculation method provided by the Bond Association (*Comité de Normalisation Obligataire*), the calculation method provided by the Bond Association (*Comité de Normalisation Obligataire*) shall prevail.

The Inflation Linked Interest applicable from time to time for each Interest Period (as specified in the relevant Final Terms) will be equal to the rate *per annum* specified in the relevant Final Terms multiplied by the Inflation Index Ratio (as defined above).

(C)

- (1) If the CPI Monthly Reference Index is not published in a timely manner, a substitute CPI Monthly Reference Index (the “**Substitute CPI Monthly Reference Index**”) shall be determined by the Calculation Agent in accordance with the following provisions:
- (x) If a provisional CPI Monthly Reference Index (*indice provisoire*) has already been published, such index shall automatically be used as the Substitute CPI Monthly Reference Index. Such provisional CPI Monthly Reference Index would be published under the heading “*indice de substitution*”. Once the definitive CPI Monthly Reference Index is released, it would automatically apply from the day following its release to all calculations taking place from this date.
 - (y) If no provisional CPI Monthly Reference Index is available, a substitute index shall be calculated on the basis of the most recently published figure adjusted as set out in the following formula:

$$\text{Substitute CPI Monthly Reference Index}_{\text{M}} = \text{CPI Monthly Reference Index}_{\text{M-1}} \times \left(\frac{\text{CPI Monthly Reference}_{\text{M-1}}}{\text{CPI Monthly Reference}_{\text{M-13}}} \right)^{\frac{1}{12}}$$

- (2) In the event INSEE decides to proceed with one or more base changes for the purpose of calculating the CPI Monthly Reference Index, the two CPI Monthly Reference Indexes which have been calculated on a different basis will be chained on the basis of the December CPI Monthly Reference Index of the last year of joint publications, which corresponds to the Daily Inflation Reference Index for 1st March of the following year. Such chaining will be carried out in accordance with the following equation:

$$\text{Key} = \frac{\text{CPI Monthly Reference Index}_{\text{pertaining to December calculated on the new basis}}}{\text{CPI Monthly Reference Index}_{\text{pertaining to December calculated on the previous basis}}}$$

Such that:

$$\text{CPI Monthly Reference Index}_{\text{New basis}}^{\text{Date D}} = \text{CPI Monthly Reference Index}_{\text{Previous basis}}^{\text{Date D}} \times \text{Key}$$

- (d) **Fixed/Floating Rate Notes:** Fixed/Floating Rate Notes may bear interest at a rate (i) that the Issuer may elect to convert on the date set out in the relevant Final Terms from a Fixed Rate to a Floating Rate, or from a Floating Rate to a Fixed Rate or (ii) that will automatically change from a Fixed Rate to a Floating Rate, or from a Floating Rate to a Fixed Rate on the date set out in the relevant Final Terms.
- (e) **Zero Coupon Notes:** Where a Note the Interest Basis of which is specified to be Zero Coupon is repayable prior to the Maturity Date is not paid when due, the amount due and payable prior to the Maturity Date shall be the Early Redemption Amount of such Note. As from the Maturity Date, the Rate of Interest for any overdue principal of such a Note shall be a rate *per annum* (expressed as a percentage) equal to the Amortisation Yield (as described in Condition 6(g)(i)).
- (f) **Accrual of Interest:** Interest shall cease to accrue on each Note on the due date for redemption unless (i) in the case of Dematerialised Notes, on such due date or (ii) in the case of Materialised Notes, upon due presentation, payment is improperly withheld or refused, in which event interest shall continue to accrue (as well after as before judgment) at the Rate of Interest in the manner provided in this Condition 5 to the Relevant Date.
- (g) **Margin, Maximum/Minimum Rates of Interest, Instalment Amounts and Redemption Amounts and Rounding:**
- (i) If any Margin is specified in the relevant Final Terms (either (x) generally, or (y) in relation to one or more Interest Accrual Periods), an adjustment shall be made to all Rates of Interest, in the case of (x), or the Rates of Interest for the specified Interest Accrual Periods, in the case of (y), calculated in accordance with (c) above by adding (if a positive number) or subtracting the absolute value (if a negative number) of such Margin, subject always to the next paragraph.
- (ii) If any Maximum or Minimum Rate of Interest, Instalment Amount or Redemption Amount is specified in the relevant Final Terms, then any Rate of Interest, Instalment Amount or Redemption Amount shall be subject to such maximum or minimum, as the case may be. Unless a higher Minimum Rate of Interest is provided in the relevant Final Terms, the Minimum Rate of Interest (which, for the avoidance of doubt, includes any applicable Margin) shall be deemed to be zero.
- (iii) For the purposes of any calculations required pursuant to these Conditions, (x) all percentages resulting from such calculations shall be rounded, if necessary, to the nearest one hundred-thousandth of a percentage point (with halves being rounded up), (y) all figures shall be rounded to seven significant figures (with halves being rounded up) and (z) all currency amounts that fall due and payable shall be rounded to the nearest unit of such currency (with halves being rounded up), save in the case of yen, which shall be rounded down to the nearest yen. For these purposes “unit” means the lowest amount of such currency that is available as legal tender in the country(ies) of such currency.
- (h) **Calculations:** The amount of interest payable in respect of any Note for any period shall be calculated by multiplying the product of the Rate of Interest and the outstanding nominal amount of such Note by the Day Count Fraction, unless an Interest Amount is specified in the relevant Final Terms in respect of such

period, in which case the amount of interest payable in respect of such Note for such period shall equal such Interest Amount (or be calculated in accordance with such formula). Where any Interest Period comprises two or more Interest Accrual Periods, the amount of interest payable in respect of such Interest Period shall be the sum of the amounts of interest payable in respect of each of those Interest Accrual Periods.

- (i) **Determination and Publication of Rates of Interest, Interest Amounts, Final Redemption Amounts, Optional Redemption Amounts, Early Redemption Amounts and Instalment Amounts:** As soon as practicable after the relevant time on such date as the Calculation Agent may be required to calculate any rate or amount, obtain any quotation or make any determination or calculation, it shall determine such rate and calculate the Interest Amounts in respect of each Specified Denomination of the Notes for the relevant Interest Accrual Period, calculate the Final Redemption Amount, Optional Redemption Amount, Early Redemption Amount or Instalment Amount, obtain such quotation or make such determination or calculation, as the case may be, and cause the Rate of Interest and the Interest Amounts for each Interest Period and the relevant Interest Payment Date and, if required to be calculated, the Final Redemption Amount, Optional Redemption Amount, Early Redemption Amount or any Instalment Amount to be notified to the Fiscal Agent, the Issuer, each of the Paying Agents, the Noteholders, any other Calculation Agent appointed in respect of the Notes that is to make a further calculation upon receipt of such information and, if the Notes are admitted to trading on a Regulated Market or listed on any other stock exchange and the rules of such Regulated Market or stock exchange so require, such Regulated Market or stock exchange as soon as possible after their determination but in no event later than (i) the commencement of the relevant Interest Period, if determined prior to such time, in the case of notification to such exchange of a Rate of Interest and Interest Amount, or (ii) in all other cases, the fourth (4th) Business Day after such determination. Where any Interest Payment Date or Interest Period Date is subject to adjustment pursuant to Condition 5(c)(ii), the Interest Amounts and the Interest Payment Date so published may subsequently be amended (or appropriate alternative arrangements made by way of adjustment) without notice in the event of an extension or shortening of the Interest Period. The determination of any rate or amount, the obtaining of each quotation and the making of each determination or calculation by the Calculation Agent(s) shall (in the absence of manifest error) be final and binding upon all parties.
- (j) **Calculation Agent:** The Issuer shall procure that there shall at all times be one or more Calculation Agents if provision is made for them in the relevant Final Terms and for so long as any Note is outstanding (as defined in Condition 4). Where more than one Calculation Agent is appointed in respect of the Notes, references in these Conditions to the Calculation Agent shall be construed as each Calculation Agent performing its respective duties under the Conditions. If the Calculation Agent is unable or unwilling to act as such or if the Calculation Agent fails duly to establish the Rate of Interest for an Interest Period or Interest Accrual Period or to calculate any Interest Amount, Instalment Amount, Final Redemption Amount, Early Redemption Amount or Optional Redemption Amount, as the case may be, or to comply with any other requirement, the Issuer shall appoint a leading bank or investment banking firm engaged in the interbank market (or, if appropriate, money, swap or over-the-counter index options market) that is most closely connected with the calculation or determination to be made by the Calculation Agent (acting through its principal Paris office or any other office actively involved in such market) to act as such in its place. The Calculation Agent may not resign its duties without a successor having been appointed as aforesaid.

6 Redemption, Purchase and Options

- (a) **Final Redemption:** Unless previously redeemed, purchased and cancelled as provided below, each Note shall be finally redeemed on the Maturity Date specified in the relevant Final Terms at its Final

Redemption Amount (which, unless otherwise provided, is its nominal amount) or, in the case of a Note falling within Condition 6(b) below, its final Instalment Amount.

- (b) **Redemption by Instalments and Final Redemption:** Unless previously redeemed, purchased and cancelled as provided in this Condition 6, each Note that provides for Instalment Dates and Instalment Amounts shall be partially redeemed on each Instalment Date at the related Instalment Amount specified in the relevant Final Terms. The outstanding nominal amount of each such Note shall be reduced by the Instalment Amount (or, if such Instalment Amount is calculated by reference to a proportion of the nominal amount of such Note, such proportion) for all purposes with effect from the related Instalment Date, unless payment of the Instalment Amount is improperly withheld or refused (i) in the case of Dematerialised Notes, on the due date for such payment or (ii) in the case of Materialised Notes, on presentation of the related Receipt, in which case, such amount shall remain outstanding until the Relevant Date relating to such Instalment Amount.
- (c) **Make-Whole Redemption by the Issuer:** If so specified in the relevant Final Terms, in respect of any issue of Notes, the Issuer may, subject to compliance by the Issuer with all relevant laws, regulations and directives and on giving not less than fifteen (15) nor more than thirty (30) calendar days' irrevocable notice in accordance with Condition 15 to the Noteholders (or such other notice period as may be specified in the relevant Final Terms) redeem the Notes, in whole or in part, at any time or from time to time (but, if a Residual Maturity Call Option is specified in the relevant Final Terms, no later than the Residual Maturity Call Option Date specified in the relevant Final Terms), prior to their Maturity Date (each such date on which the Notes are so redeemed, an "**Optional Redemption Date**") at a price per relevant Specified Denomination of the Notes equal (subject as provided below in the case of a partial redemption in respect of Dematerialised Notes) to their Optional Redemption Amount.

The "**Optional Redemption Amount**" means in respect of each relevant Specified Denomination of the Notes to be redeemed pursuant to this Condition 6(c) an amount calculated by the Calculation Agent equal to the greater of (x) 100 per cent. of the outstanding nominal amount per each relevant Specified Denomination of the Notes so redeemed and, (y) the sum (rounded to the nearest cent of the relevant Specified Currency (with half a cent being rounded upwards)) of the then present values of the remaining scheduled payments of principal and interest per each relevant Specified Denomination of such Notes until the Maturity Date (or, if a Residual Maturity Call Option is specified in the relevant Final Terms, until the Residual Maturity Call Option Date, and assuming for this purpose, that the Notes would otherwise be scheduled to be redeemed in whole on the Residual Maturity Call Option Date pursuant to Condition 6(d)) (not including any interest accrued on the Notes to, but excluding, the relevant Optional Redemption Date) discounted to the relevant Optional Redemption Date on an annual basis at the Redemption Rate (as specified in the relevant Final Terms) plus a Redemption Margin (as specified in the relevant Final Terms), plus in each case (x) or (y) above, any interest accrued on the Notes to, but excluding, the Optional Redemption Date.

"**Redemption Rate**" means (unless otherwise specified in the Final Terms) the average (rounded to the nearest whole multiple of 0.001%, with 0.0005% being rounded upwards) of such number quotations as are available by the Reference Dealers (or, if only one such quotation is available, such quotation) of the mid-market annual yield to maturity of the Reference Bond (as specified in the relevant Final Terms) (or, if the Reference Bond is no longer outstanding, the Similar Security) at 11.00 a.m. (Paris time) on the third (3rd) business day preceding the Optional Redemption Date, all as determined by the Calculation Agent.

"**Reference Dealers**" means (unless otherwise specified in the Final Terms) each of the three banks selected by the Calculation Agent which are primary European government security dealers, and their respective successors, or market makers in pricing corporate bond issues.

“**Similar Security**” means (unless otherwise specified in the Final Terms) the then outstanding benchmark bond of the issuer (or any other relevant related entity) of the Reference Bond that (i) (to the extent there is any relevant market for new issues of corporate debt securities of comparable maturity to the Maturity Date (or, if a Residual Maturity Call Option is specified in the relevant Final Terms, the Residual Maturity Call Option Date)) would be used, at the time of selection and in accordance with customary financial practice, in pricing new issues of corporate debt securities of comparable maturity to the Maturity Date (or, if a Residual Maturity Call Option is specified in the relevant Final Terms, the Residual Maturity Call Option Date)), or (ii) (where (i) does not apply) has the maturity date falling nearest to the Maturity Date (or, if a Residual Maturity Call Option is specified in the relevant Final Terms, the Residual Maturity Call Option Date)), all as determined by the Calculation Agent and notified (promptly following such determination) by the Issuer in accordance with Condition 15.

The determination of any rate or amount, the obtaining of each quotation and the making of each determination or calculation by the Calculation Agent shall (in the absence of manifest error) be final and binding upon all parties.

In the case of a partial redemption in respect of Materialised Notes, the notice to holders of such Materialised Notes shall also contain the number of the Definitive Materialised Notes to be redeemed, which shall have been drawn in such place and in such manner as may be fair and reasonable in the circumstances, taking account of prevailing market practices, subject to compliance with any applicable laws and Regulated Market or other stock exchange requirements.

In the case of a partial redemption in respect of Dematerialised Notes, the redemption may only be effected by application of a pool factor (corresponding to a reduction of the nominal amount of all such Dematerialised Notes in a Series in proportion to the aggregate nominal amount redeemed).

So long as the Notes are admitted to trading on Euronext Paris and the rules of that stock exchange so require, the Issuer shall, once in each year in which there has been a partial redemption of the Notes, cause to be published in accordance with Articles 221-3 and 221-4 of the General Regulations (*Règlement Général*) of the *Autorité des marchés financiers* and on the website of any other competent authority and/or Regulated Market where the Notes are admitted to trading, a notice specifying the aggregate nominal amount of Notes outstanding and, in the case of Materialised Notes a list of any Definitive Materialised Bearer Notes drawn for redemption but not surrendered.

- (d) **Residual Maturity Call Option:** If a Residual Maturity Call Option is specified in the relevant Final Terms, the Issuer may, on giving not less than fifteen (15) nor more than thirty (30) calendar days’ irrevocable notice in accordance with Condition 15 to the Noteholders (or such other notice period as may be specified in the relevant Final Terms) redeem, at any time or from time to time, as from the Residual Maturity Call Option Date (as specified in the relevant Final Terms) (the “**Residual Maturity Call Option Date**”) which shall be no earlier than a hundred and eighty (180) calendar days before the Maturity Date, until the Maturity Date, the Notes, in whole or in part, at par together with interest accrued to, but excluding, the date fixed for redemption (including, where applicable, any arrears of interest).

All Notes in respect of which any such notice is given shall be redeemed on the date specified in such notice in accordance with this Condition.

In the case of a partial redemption in respect of Materialised Notes, the notice to holders of such Materialised Notes shall also contain the number of the Definitive Materialised Bearer Notes to be redeemed which shall have been drawn in such place and in such manner as may be fair and reasonable in the circumstances, taking account of prevailing market practices, subject to compliance with any applicable laws and Regulated Market or other stock exchange requirements.

In the case of a partial redemption in respect of Dematerialised Notes, the redemption may only be effected by application of a pool factor (corresponding to a reduction of the nominal amount of all such Dematerialised Notes in a Series in proportion to the aggregate nominal amount redeemed).

So long as the Notes are admitted to trading on Euronext Paris and the rules of that stock exchange so require, the Issuer shall, once in each year in which there has been a partial redemption of the Notes, cause to be published in accordance with Articles 221-3 and 221-4 of the General Regulations (*Règlement Général*) of the *Autorité des marchés financiers* and on the website of any other competent authority and/or Regulated Market where the Notes are admitted to trading, a notice specifying the aggregate nominal amount of Notes outstanding and, in the case of Materialised Notes a list of any Definitive Materialised Bearer Notes drawn for redemption but not surrendered.

- (e) **Redemption at the Option of the Issuer:** If a Call Option is specified in the relevant Final Terms, the Issuer may, on giving not less than fifteen (15) nor more than thirty (30) calendar days' irrevocable notice in accordance with Condition 15 to the Noteholders (or such other notice period as may be specified in the relevant Final Terms) redeem in relation to, all or, if so provided, some, of the Notes on any Optional Redemption Date (as specified in the relevant Final Terms). Any such redemption of Notes shall be at their Optional Redemption Amount (as specified in the relevant Final Terms) together with interest accrued to, but excluding, the date fixed for redemption (including, where applicable, any arrears of interest), if any. Any such redemption or exercise must relate to Notes of a nominal amount at least equal to the minimum nominal amount to be redeemed specified in the relevant Final Terms and no greater than the maximum nominal amount to be redeemed specified in the relevant Final Terms.

All Notes in respect of which any such notice is given shall be redeemed on the date specified in such notice in accordance with this Condition.

In the case of a partial redemption in respect of Materialised Notes, the notice to holders of such Materialised Notes shall also contain the number of the Definitive Materialised Bearer Notes to be redeemed, which shall have been drawn in such place and in such manner as may be fair and reasonable in the circumstances, taking account of prevailing market practices, subject to compliance with any applicable laws and Regulated Market or other stock exchange requirements.

In the case of a partial redemption in respect of Dematerialised Notes, the redemption may only be effected by the application of a pool factor (corresponding to a reduction of the nominal amount of all such Dematerialised Notes in a Series in proportion to the aggregate nominal amount redeemed).

So long as the Notes are admitted to trading on Euronext Paris and the rules of that stock exchange so require, the Issuer shall, once in each year in which there has been a partial redemption of the Notes, cause to be published in accordance with Articles 221-3 and 221-4 of the General Regulations (*Règlement Général*) of the *Autorité des marchés financiers* and on the website of any other competent authority and/or Regulated Market where the Notes are admitted to trading, a notice specifying the aggregate nominal amount of Notes outstanding and, in the case of Materialised Notes a list of any Definitive Materialised Bearer Notes drawn for redemption but not surrendered.

- (f) **Redemption at the Option of Noteholders and Exercise of Noteholders' Options:** If a Put Option is specified in the relevant Final Terms, the Issuer shall, at the option of the Noteholder, upon the Noteholder giving not less than fifteen (15) nor more than thirty (30) calendar days' notice to the Issuer (or such other notice period as may be specified in the relevant Final Terms), redeem such Note on the Optional Redemption Date(s) at its Optional Redemption Amount together with interest accrued to, but excluding, the date fixed for redemption (including, where applicable, any arrears of interest).

To exercise such option the Noteholder must deposit with any Paying Agent at its specified office a duly completed option exercise notice (the "**Exercise Notice**") in the form obtained from any Paying Agent,

within the notice period. In the case of Materialised Bearer Notes, the Exercise Notice shall have attached to it such Notes (together with all unmatured Receipts and Coupons and unexchanged Talons). In the case of Dematerialised Notes, the Noteholder shall transfer, or cause to be transferred, the Dematerialised Notes to be redeemed to the account of the Fiscal Agent and the Paying Agent specified in the Exercise Notice. No option so exercised and, where applicable, no Note so deposited or transferred may be withdrawn without the prior consent of the Issuer.

(g) **Early Redemption:**

(i) Zero Coupon Notes:

- (A) The Early Redemption Amount payable in respect of any Zero Coupon Note, the Early Redemption Amount, upon redemption of such Note pursuant to Condition 6(h) or Condition 6(l) or upon it becoming due and payable as provided in Condition 9 shall be the Amortised Nominal Amount (calculated as provided below) of such Note.
- (B) Subject to the provisions of sub-paragraph (C) below, the Amortised Nominal Amount of any such Note shall be the scheduled Final Redemption Amount of such Note on the Maturity Date discounted at a rate *per annum* (expressed as a percentage) equal to the Amortisation Yield (which, if none is shown in the relevant Final Terms, shall be such rate as would produce an Amortised Nominal Amount equal to the issue price of the Notes if they were discounted back to their issue price on the Issue Date) compounded annually.
- (C) If the Early Redemption Amount payable in respect of any such Note upon its redemption pursuant to Condition 6(h) or Condition 6(l) or upon it becoming due and payable as provided in Condition 9 is not paid when due, the Early Redemption Amount due and payable in respect of such Note shall be the Amortised Nominal Amount of such Note as defined in sub-paragraph (B) above, except that such sub-paragraph shall have effect as though the date on which the Amortised Nominal Amount becomes due and payable were the Relevant Date. The calculation of the Amortised Nominal Amount in accordance with this sub-paragraph shall continue to be made (as well after as before judgment) until the Relevant Date, unless the Relevant Date falls on or after the Maturity Date, in which case the amount due and payable shall be the scheduled Final Redemption Amount of such Note on the Maturity Date together with any interest that may accrue in accordance with Condition 5(e). Where such calculation is to be made for a period of less than one (1) year, it shall be made on the basis of the Day Count Fraction shown in the relevant Final Terms.

- (ii) Other Notes: The Early Redemption Amount payable in respect of any Note (other than Notes described in (i) above), upon redemption of such Note pursuant to Condition 6(h) or Condition 6(l), or upon it becoming due and payable as provided in Condition 9 shall be the Final Redemption Amount together with interest accrued to the date fixed for redemption (including, where applicable, any arrears of interest).

(h) **Redemption for Taxation Reasons**

- (i) If, by reason of any change in, or any change in the official application or interpretation of, French law becoming effective after the Issue Date, the Issuer or, as the case may be, the Guarantor (in respect of the Guarantee), would on the occasion of the next payment of principal or interest due in respect of the Notes, Receipts or Coupons, not be able to make such payment without having to pay Additional Amounts as specified and defined under Condition 8 below, the Issuer may, at its option, on any Interest Payment Date or, if so specified in the relevant Final Terms, at any time, subject to having given not more than forty-five (45) nor less than fifteen (15) calendar days' notice to the Noteholders (which notice shall be irrevocable), in accordance with Condition 15,

redeem, in whole but not in part, the Notes at their Early Redemption Amount together with any interest accrued to the date set for redemption (including, where applicable, any arrears of interest) provided that the due date for redemption of which notice hereunder may be given shall be no earlier than the latest practicable date on which the Issuer or the Guarantor, as the case may be, could make payment of principal and interest without withholding or deduction for such taxes.

- (ii) If the Issuer or, as the case may be, the Guarantor (in respect of the Guarantee), would on the next payment of principal or interest in respect of the Notes, Receipts or Coupons be prevented by French law from making payment to the Noteholders or, if applicable, the Receiptholders or the Couponholders of the full amounts then due and payable, notwithstanding the undertaking to pay Additional Amounts contained in Condition 8 below, then the Issuer shall forthwith give notice of such fact to the Fiscal Agent and the Issuer shall upon giving not less than seven (7) calendar days' prior notice to the Noteholders in accordance with Condition 15, redeem, in whole but not in part, the Notes then outstanding at their Early Redemption Amount together with any interest accrued to the date set for redemption (including, where applicable, any arrears of interest) on the latest practicable Interest Payment Date on which the Issuer or the Guarantor, as the case may be, could make payment of the full amount then due and payable in respect of the Notes or, if applicable, Receipts or Coupons, or, if that date is passed, as soon as practicable thereafter.
- (i) **Purchases:** The Issuer shall have the right at all times to purchase Notes (provided that, in the case of Materialised Notes, all unmatured Receipts and Coupons and unexchanged Talons relating thereto are attached thereto or surrendered therewith) in the open market or otherwise at any price subject to the applicable laws and regulations. Unless the possibility of holding and reselling is expressly excluded in the relevant Final Terms, all Notes so purchased by the Issuer may be held and resold in accordance with applicable laws and regulations.
- (j) **Clean-up Call Option:** If a Clean-up Call Option is specified in the relevant Final Terms and if 75 per cent. or any higher percentage specified in the relevant Final Terms (the "**Clean-up Call Percentage**") of the initial aggregate nominal amount of Notes of the same Series (which for the avoidance of doubt include any additional Notes issued subsequently and forming a single series with the first Tranche of a particular Series of Notes) have been redeemed or purchased by, or on behalf of, the Issuer or any of its subsidiaries and, in each case, cancelled, the Issuer may, on giving not less than fifteen (15) nor more than thirty (30) days' irrevocable notice in accordance with Condition 15 to the Noteholders redeem the Notes, in whole but not in part, at the Early Redemption Amount together with interest accrued to, but excluding, the date fixed for redemption.
- (k) **Cancellation:** All Notes purchased by or on behalf of the Issuer for cancellation will forthwith be cancelled, in the case of Dematerialised Notes, by transfer to an account in accordance with the rules and procedures of Euroclear France and, in the case of Materialised Bearer Notes, by surrendering the Temporary Global Certificate and the Definitive Materialised Bearer Notes in question together with all unmatured Receipts and Coupons and all unexchanged Talons to the Fiscal Agent and, in each case, if so transferred or surrendered, shall, together with all Notes redeemed by the Issuer, be cancelled forthwith (together with, in the case of Dematerialised Notes, all rights relating to payment of interest and other amounts relating to such Dematerialised Notes and, in the case of Materialised Notes, all unmatured Receipts and Coupons and unexchanged Talons attached thereto or surrendered therewith). Any Notes so cancelled or, where applicable, transferred or surrendered for cancellation may not be reissued or resold and the obligations of the Issuer [and the Guarantor] in respect of any such Notes shall be discharged.
- (l) **Illegality:** If, by reason of any change in, or any change in the official application of French law becoming effective after the Issue Date, it will become unlawful (i) for the Issuer to perform or comply with one or more of its obligations under the Notes, [or (ii) for the Guarantor to perform or comply with one or more

of its obligations under the Guarantee] the Issuer will, subject to having given not more than forty-five (45) nor less than thirty (30) calendar days' notice to the Noteholders (which notice shall be irrevocable), in accordance with Condition 15, redeem, in whole but not in part, the Notes at their Early Redemption Amount together with any interest accrued to the date set for redemption (including, where applicable, any arrears of interest).

(m) **Redemption or repurchase at the option of the Noteholders in case of Change of Control:**

If a Put Option in case of Change of Control (as defined below) is specified in the relevant Final Terms, and if a Put Event (as defined below) occurs, each Noteholder will have the option to require the Issuer to redeem or repurchase all or part of the Notes held by such Noteholder on the Put Date (as defined below) at their principal amount together with interest accrued up to but excluding such date of redemption or repurchase. Such option (the **"Put Option in case of Change of Control"**) shall operate as set out below.

(A) A **"Put Event"** will be deemed to occur if:

- (i) Any person or group of persons acting in concert or any person or persons acting on behalf of any such person(s) (the **"Relevant Persons"**) (a) acquires directly or indirectly more than 50 per cent. of the total voting rights or of the issued ordinary share capital of ENGIE (or any successor entity), (b) acquires directly or indirectly a number of shares in the ordinary share capital of ENGIE carrying more than 40 per cent. of the voting rights exercisable in general meetings of ENGIE and no other shareholder of such entity, directly or indirectly, acting alone or in concert with others, holds a number of shares carrying a percentage of the voting rights exercisable in such general meetings which is higher than the percentage of voting rights attached to the number of shares held directly or indirectly by such Relevant Person(s) (any such event being a **"Change of Control"**); and
- (ii) on the date notified to the Noteholders by the Issuer in accordance with Condition 15 (the **"Relevant Announcement Date"**) that is the earlier of (x) the date of the first public announcement of the Change of Control; and (y) the date of the earliest Relevant Potential Change of Control Announcement, either the Notes or the senior unsecured long-term debt of ENGIE carries from any of Moody's France SAS (**"Moody's"**), S&P Global Ratings Europe Limited (**"S&P"**), or Fitch Ratings Ireland Limited (**"Fitch"**) or any of their respective successors to the rating business thereof, or any other rating agency (each a **"Substitute Rating Agency"**) of international standing (each, a **"Rating Agency"**):
 - (x) an investment grade credit rating (Baa3/BBB-/BBB-, or equivalent, or better), and such rating from any rating agency is, within the Change of Control Period either downgraded to a non-investment grade credit rating (Ba1/BB+/BB+, or equivalent, or worse) or withdrawn and is not, within the Change of Control Period subsequently (in the case of a downgrade) upgraded or (in the case of a withdrawal) reinstated to an investment grade credit rating by such Rating Agency; or
 - (y) a non-investment grade credit rating (Ba1/BB+/BB+, or equivalent, or worse), and such rating from any Rating Agency is within the Change of Control Period either downgraded by one or more notches (for illustration, Ba1/BB+/BB+ to Ba2/BB/BB being one notch) or withdrawn and is not within the Change of Control Period subsequently (in the case of a downgrade) upgraded or (in the case of a withdrawal) reinstated to its earlier credit rating or better by such Rating Agency;

provided that, for the avoidance of doubt,

1. any such decision of the relevant Rating Agency referred to in (x) or (y) above shall not be deemed to have occurred in respect of a particular Change of Control if such Rating Agency does not publicly announce or confirm that such decision was the result, in whole or in part, of any event or circumstance comprised in or arising as a result of, or in respect of, the applicable Change of Control; and
 2. if at the time of the occurrence of a Change of Control neither the Notes nor the senior unsecured long-term debt of ENGIE is rated by a Rating Agency, and no Rating Agency assigns within the Change of Control Period an investment grade rating to the Notes, a Put Event will be deemed to have occurred.
- (B) Promptly upon the Issuer [or the Guarantor] becoming aware that a Put Event has occurred the Issuer shall give notice (a “**Put Event Notice**”) to the Noteholders in accordance with Condition 15 specifying the nature of the Put Event, the circumstances giving rise to it and the procedure for exercising the option contained in this Condition.
- (C) To exercise the Put Option in case of Change of Control to require redemption or repurchase of the Notes, any Noteholder must transfer or cause to be transferred the Notes to be so redeemed or repurchased to the account of any Paying Agent and deliver to the Issuer a duly completed redemption or repurchase notice in writing (a “**Change of Control Put Notice**”), in which such Noteholder will specify a bank account to which payment is to be made under this paragraph, within the period (the “**Put Period**”) of forty-five (45) calendar days after a Put Event Notice is given (except where (i) the Noteholder gives the Issuer written notice of the occurrence of a Put Event of which it is aware and (ii) the Issuer fails to give a Put Event Notice to the Noteholders by close of business of the third (3rd) Business Day after the receipt of such notice from the Noteholder, in which case the Put Period will start from such third Business Day and will end on the day falling forty-five (45) calendar days thereafter).

A Change of Control Put Notice once given shall be irrevocable. The Issuer shall redeem or repurchase the Notes in respect of which the Put Option in case of Change of Control has been validly exercised as provided above and subject to the transfer of the Notes, on the date which is the fifth (5th) Business Day following the end of the Put Period (the “**Put Date**”). “**Relevant Potential Change of Control Announcement**” means any public announcement or statement by the Issuer, ENGIE or any Relevant Person thereto relating to any potential Change of Control.

7 Payments and Talons

- (a) **Dematerialised Notes:** Payments of principal and interest (including, for the avoidance of doubt, any arrears of interest, where applicable) in respect of Dematerialised Notes shall (in the case of Dematerialised Notes in bearer form or administered registered form) be made by transfer to the account denominated in the relevant currency of the relevant Euroclear France Account Holders for the benefit of the Noteholders or (in the case of Dematerialised Notes in fully registered form) to an account denominated in the relevant currency with a Bank (as defined below) designated by the Noteholders. All payments validly made to such Euroclear France Account Holders will be an effective discharge of the Issuer in respect of such payments.
- (b) **Materialised Bearer Notes:** Payments of principal and interest (including, for the avoidance of doubt, any arrears of interest, where applicable) in respect of Materialised Bearer Notes shall, subject as mentioned below, be made against presentation and surrender of the relevant Receipts (in the case of payments of Instalment Amounts other than on the due date for redemption and provided that the Receipt is presented for payment together with its relative Note), Materialised Bearer Notes (in the case of all other payments of principal and, in the case of interest, as specified in Condition 7(f)(vi)) or Coupons (in the case of interest, save as specified in Condition 7(f)(vi)), as the case may be, at the specified office of any Paying Agent outside the United States by a cheque payable in the relevant currency drawn on, or, at the option of the Noteholder, by transfer to an account denominated in such currency with, a Bank. No payments in respect of Materialised Bearer Notes shall be made by transfer to an account in, or mailed to an address in, the United States.

“**Bank**” means a bank in the principal financial centre for such currency or, in the case of euro, in a city in which banks have access to the T2.

- (c) **Payments in the United States:** Notwithstanding the foregoing, if any Materialised Bearer Notes are denominated in U.S. Dollars, payments in respect thereof may be made at the specified office of any Paying Agent in New York City in the same manner as aforesaid if (i) the Issuer shall have appointed Paying Agents with specified offices outside the United States with the reasonable expectation that such Paying Agents would be able to make payment of the amounts on the Notes in the manner provided above when due, (ii) payment in full of such amounts at all such offices is illegal or effectively precluded by exchange controls or other similar restrictions on payment or receipt of such amounts and (iii) such payment is then permitted by United States law, without involving, in the opinion of the Issuer, any adverse tax consequence to the Issuer [or the Guarantor, if payment is being made under the Guarantee].
- (d) **Payments Subject to Fiscal Laws:** All payments are subject in all cases to any applicable fiscal or other laws, regulations and directives in the place of payment but without prejudice to the provisions of Condition 8. The Fiscal Agent, the Paying Agents, the Registration Agent, the Redenomination Agent and the Consolidation Agent act solely as agents of each Issuer and the Calculation Agent(s) act(s) as independent experts(s) and, in each case such, do not assume any obligation or relationship of agency for any Noteholder or Couponholder. The Issuer reserves the right at any time to vary or terminate the appointment of the Fiscal Agent, any other Paying Agent, the Registration Agent, the Redenomination Agent and the Consolidation Agent or the Calculation Agent(s) and to appoint additional or other Paying Agents, provided that the Issuer shall at all times maintain (i) a Fiscal Agent, (ii) one or more Calculation Agent(s) where the Conditions so require, (iii) a Redenomination Agent and a Consolidation Agent where the Conditions so require, (iv) in the case of

On a redenomination of the Notes of any Series pursuant to Condition 1(d) with a view to consolidating such Notes with one or more other Series of Notes, in accordance with Condition 14, the Issuer shall ensure that the same entity shall be appointed as both Redenomination Agent and Consolidation Agent in respect of both such Notes and such other Series of Notes to be so consolidated with such Notes.

Notice of any such change or any change of any specified office shall promptly be given to the Noteholders in accordance with Condition 15.

(f) **Unmatured Coupons and Receipts and unexchanged Talons:**

- (i) Unless Materialised Bearer Notes provide that the relative Coupons are to become void upon the due date for redemption of those Notes, Materialised Bearer Notes should be surrendered for payment together with all unexpired Coupons (if any) relating thereto, failing which an amount equal to the face value of each missing unexpired Coupon (together, where applicable, with the amount of any arrears of interest corresponding to such Coupon) (or, in the case of payment not being made in full, that proportion of the amount of such missing unexpired Coupon (together, where applicable, with the amount of any arrears of interest corresponding to such Coupon) that the sum of principal so paid bears to the total principal due) shall be deducted from the Final Redemption Amount, Amortised Nominal Amount, Early Redemption Amount or Optional Redemption Amount, as the case may be, due for payment. Any amount so deducted shall be paid in the manner mentioned above against surrender of such missing Coupon within a period of ten (10) years from the Relevant Date for the payment of such principal (whether or not such Coupon has become void pursuant to Condition 10).
- (ii) If Materialised Bearer Notes so provide, upon the due date for redemption of any such Materialised Bearer Note, unexpired Coupons relating to such Note (whether or not attached) shall become void and no payment shall be made in respect of them.
- (iii) Upon the due date for redemption of any Materialised Bearer Note, any unexpired Talon relating to such Note (whether or not attached) shall become void and no Coupon shall be delivered in respect of such Talon.
- (iv) Upon the due date for redemption of any Materialised Bearer Note that is redeemable in instalments, all Receipts relating to such Materialised Bearer Note having an Instalment Date falling on or after such due date (whether or not attached) shall become void and no payment shall be made in respect of them.
- (v) Where any Materialised Bearer Note that provides that the relative unexpired Coupons are to become void upon the due date for redemption of those Notes is presented for redemption without all unexpired Coupons, and where any such Note is presented for redemption without any unexpired Talon relating to it, redemption shall be made only against the provision of such indemnity as the Issuer [and the Guarantor, as the case may be,] may require.
- (vi) If the due date for redemption of any Materialised Bearer Note is not a due date for payment of interest, interest accrued from the preceding due date for payment of interest or the Interest Commencement Date, as the case may be, (including, for the avoidance of doubt, any arrears of

interest if applicable) shall only be payable against presentation (and surrender if appropriate) of the relevant Definitive Materialised Bearer Note. Interest accrued on a Materialised Bearer Note that only bears interest after its Maturity Date shall be payable on redemption of such Note against presentation of the relevant Materialised Bearer Notes.

- (g) **Talons:** On or after the Interest Payment Date for the final Coupon forming part of a Coupon sheet issued in respect of any Materialised Bearer Note, the Talon forming part of such Coupon sheet may be surrendered at the specified office of the Fiscal Agent in exchange for a further Coupon sheet (and if necessary another Talon for a further Coupon sheet) (but excluding any Coupons that may have become void pursuant to Condition 10).
- (h) **Non-Business Days:** If any date for payment in respect of any Note, Receipt or Coupon is not a business day, the Noteholder shall not be entitled to payment until the next following business day nor to any interest or other sum in respect of such postponed payment. In this paragraph, “**business day**” means a day (other than a Saturday or a Sunday) (A) (i) in the case of Dematerialised Notes, on which Euroclear France is open for business or (ii) in the case of Materialised Notes, on which banks and foreign exchange markets are open for business in the relevant place of presentation, (B) on which banks and foreign exchange markets are open for business in such jurisdictions as shall be specified as “**Financial Centres**” in the relevant Final Terms and (C) (i) in the case of a payment in a currency other than euro, where payment is to be made by transfer to an account maintained with a bank in the relevant currency, on which foreign exchange transactions may be carried on in the relevant currency in the principal financial centre of the country of such currency or (ii) in the case of a payment in euro, which is a T2 Business Day.

8 Taxation

- (a) **Taxation:** All payments of principal, interest and other assimilated revenues by or on behalf of the Issuer in respect of the Notes, Receipts or Coupons shall be made free and clear of, and without withholding or deduction for, any taxes, duties, assessments or governmental charges of whatever nature imposed, levied, collected, withheld or assessed by or within France or any authority therein or thereof having power to tax, unless such withholding or deduction is required by law.
- (b) **Additional amounts:** If applicable law should require that payments of principal, interest or other assimilated revenues made by the Issuer in respect of any Note, Receipt or Coupon be subject to withholding or deduction in respect of any present or future taxes, duties, assessments or governmental charges whatsoever levied by France, the Issuer will, to the fullest extent then permitted by law, pay such additional amounts (“**Additional Amounts**”) as shall result in receipt by the Noteholders or, if applicable, the Receiptholders and the Couponholders, as the case may be, of such amounts as would have been received by them had no such withholding or deduction been required, except that no such Additional Amounts shall be payable with respect to any Note, Receipt or Coupon, as the case may be:
 - (i) **Other connection:** to, or to a third party on behalf of, a Noteholder, a Receiptholder or a Couponholder who is (i) entitled to avoid such deduction or withholding by making a declaration of non-residence or other similar claim for exemption to the financial intermediary, the Issuer or the competent tax authority; or (ii) liable to such taxes, duties, assessments or governmental charges in respect of such Note, Receipt or Coupon by reason of his having some connection with France other than the mere holding of the Note, Receipt or Coupon; or
 - (ii) **Presentation more than thirty (30) calendar days after the Relevant Date:** (in the case of Materialised Notes) presented for payment more than thirty (30) calendar days after the Relevant Date except to the extent that the Noteholder, Receiptholder or Couponholder would have been entitled to such Additional Amounts on presenting it for payment on the thirtieth (30th) such day.

As used in these Conditions, “**Relevant Date**” in respect of any Note, Receipt or Coupon means the date on which payment in respect of it first becomes due (and, for the avoidance of doubt, in the case of arrears of interest, references to “**becomes due**” shall be interpreted in accordance with the provisions of Condition 5(f) or (if any amount of the money payable is improperly withheld or refused) the date on which payment in full of the amount outstanding is made or, in the case of Materialised Notes (if earlier) the date seven (7) days after that on which notice is duly given to the Noteholders that, upon further presentation of the Note, Receipt or Coupon being made in accordance with the Conditions, such payment will be made, provided that payment is in fact made upon such presentation. References in these Conditions to (i) “**principal**” shall be deemed to include any premium payable in respect of the Notes, all Instalment Amounts, Final Redemption Amounts, Early Redemption Amounts, Optional Redemption Amounts, Amortised Nominal Amounts and all other amounts in the nature of principal payable pursuant to Condition 6 or any amendment or supplement to it, (ii) “**interest**” shall be deemed to include all Interest Amounts and all other amounts (including, for the avoidance of doubt, all arrears of interest) payable pursuant to Condition 5 or any amendment or supplement to it and (iii) “**principal**” and/or “**interest**” shall be deemed to include any Additional Amounts that may be payable under this Condition.

9 Events of Default

The following will be Events of Default (each, an “**Event of Default**” with respect to any Note):

- (b) there is a default by the Issuer [or the Guarantor] in the due performance of any other provision of the Notes [or the Guarantee, as the case may be], and such default shall not have been cured within thirty (30) Business Days (as defined in Condition 5(a)) after receipt by the Fiscal Agent of written notice of default given by (i) the Representative upon request of the Noteholder or (ii) if the relevant Final Terms specify “*No Masse*”, any Noteholder; or
- (c) the Issuer [or the Guarantor] (i) shall fail to make one or more payments when due or within any applicable grace period on any indebtedness for money borrowed or guarantee of the indebtedness for money borrowed of another party in an aggregate principal amount of at least Euro 250,000,000 (or, in each case, the equivalent in another currency) and (ii) (other than where the due date for such defaulted payment is the stated maturity) such indebtedness shall have been accelerated;
- (d) the Issuer [or the Guarantor] (i) becomes insolvent or (ii) is subject to a judgment rendered for its judicial liquidation (*liquidation judiciaire*) or for a transfer of the whole or part of the business (*cession totale ou partielle de l'entreprise*) or (iii) is subject to any analogous proceedings under any applicable law; or
- (e) the Guarantee is not (or is claimed by the Guarantor not to be) in full force and effect].

Whenever an Event of Default shall have occurred and be continuing during seven (7) calendar days, (i) the acting Representative (as defined in Condition 11(c)(i) or 11(d) (i), as the case may be) or (ii) if the relevant Final Terms specify “*No Masse*”, any Noteholder acting in respect of the Notes it holds may, by written notice to the Issuer and the Fiscal Agent declare the Notes to be due and payable at their principal amount together with any accrued interest thereon, if any, upon the date that written notice is received by or on behalf of the Issuer and the Fiscal Agent. If an Event of Default specified in paragraph (d) occurs, the Notes will be immediately due and payable at their principal amount together with any accrued interest thereon, if any, without any declaration or other act on the part of any Noteholder.

10 Prescription

Claims against the Issuer for payment in respect of the Notes, Receipts and Coupons (which for this purpose shall not include Talons) shall be prescribed and become void unless made within ten (10) years (in the case of principal) or five (5) years (in the case of interest) from the appropriate Relevant Date in respect of them.

12 Modifications

These Conditions may be completed in relation to any Series of Notes by the terms of the relevant Final Terms in relation to such Series.

The Agency Agreement will be capable of amendment or waiver by the parties thereto, without the consent of Noteholders, Receiptholders or Couponholders, for the purpose of curing any ambiguity or of curing, correcting or supplementing any defective provision contained therein or in any manner which the parties to the Agency Agreement mutually deem necessary or desirable and which does not, in the reasonable opinion of the Issuer [and the Guarantor], adversely affect the interests of the Noteholders, Receiptholders or Couponholders.

13 Replacement of definitive Notes, Receipts, Coupons and Talons

If, in the case of any Materialised Bearer Notes, a Definitive Materialised Bearer Note, Receipt, Coupon or Talon is lost, stolen, mutilated, defaced or destroyed, it may be replaced, subject to applicable laws, regulations and Regulated Market or other stock exchange regulations, at the specified office of the Fiscal Agent or such other Paying Agent as may from time to time be designated by the Issuer for the purpose and notice of whose designation is given to Noteholders, in each case on payment by the claimant of the fees and costs incurred in connection therewith and on such terms as to evidence, security and indemnity (which may provide, inter alia, that if the allegedly lost, stolen or destroyed Definitive Materialised Bearer Note, Receipt, Coupon or Talon is subsequently presented for payment or, as the case may be, for exchange for further Coupons, there shall be paid to the Issuer on demand the amount payable by the Issuer in respect of such Definitive Materialised Bearer Notes, Receipts, Coupons or further Coupons) and otherwise as the Issuer may require. Mutilated or defaced Materialised Bearer Notes, Receipts, Coupons or Talons must be surrendered before replacements will be issued.

- (b) **Consolidation:** The Issuer, with the prior approval of the Consolidation Agent, may from time to time on any Interest Payment Date occurring on or after the Redenomination Date on giving not less than thirty (30) calendar days' prior notice to the Noteholders in accordance with Condition 15, without the consent of the Noteholders, Receiptholders or Couponholders, consolidate the Notes of one Series with the Notes of one or more other Series issued by it, whether or not originally issued in one of the European national currencies or in euro, provided such other Notes have been redenominated in Euro (if not originally denominated in euro) and which otherwise have, in respect of all periods subsequent to such consolidation, the same terms and conditions as the Notes.

PRO-FORMA OF THE GUARANTEE OF ENGIE

The following is the pro-forma of the guarantee that ENGIE is expected to issue in connection with the substitution of Issuer provided under Condition 16 of the Terms and Conditions of the Notes:

The undersigned ENGIE, a public limited liability company (a *société anonyme*) with a share capital of €[●] whose head-office is located at 1, place Samuel de Champlain, 92400 Courbevoie, France, represented by [●], duly authorised to deliver this guarantee (the “**Guarantee**”) by [●] hereinafter referred to as the “**Guarantor**” or “**ENGIE**”, hereby refers to:

- (A) The following Series of Euro Medium Term Notes (together, the “**Notes**”), which have been issued by ENGIE under a Euro Medium Term Notes Programme in the aggregate nominal amount of Notes outstanding not exceeding at any time €30,000,000,000 (or the equivalent in any other currencies) (the “**Programme**”):

[briefly describe Series of Notes issued in respect of which the Issuer has been substituted];

- (B) the terms and conditions of the Notes (the “**Terms and Conditions**” or, with respect to a particular numbered condition, a “**Condition**”), and in particular Condition 16;
- (C) the amended and restated agency agreement (as amended or supplemented from time to time, the “**Agency Agreement**”) dated 17 May 2023 between ENGIE as Issuer, Citibank, N.A., London Branch as fiscal agent and the other agents named in it;
- (D) the amended and restated dealer agreement (as amended or supplemented from time to time, the “**Dealer Agreement**” and together with the Agency Agreement, the “**Agreements**”) dated 17 May 2023 entered into between ENGIE as Issuer and the Permanent Dealers and the Arranger,
- (E) the transfer by ENGIE to [●], a company incorporated under the laws of [●], which as of the transfer date is a fully consolidated subsidiary of ENGIE and whose head-office is located at [●] (the “**Substituted Issuer**”) of all (but not some only) of the rights, obligations and liabilities of ENGIE under the Notes (including any further notes issued in accordance with Condition 14), Receipts and Coupons, as of [●].

The Guarantor hereby declares being fully aware of all the Terms and Conditions, the Agreements and the Programme.

In this context, the Guarantor hereby irrevocably and unconditionally guarantees up to a maximum outstanding principal amount of €[●], pursuant to an autonomous obligation (*garantie autonome*), to the holders of the Notes transferred to the Substituted Issuer (the “**Noteholders**”) the payment of interest and principal of the Notes. The Guarantor thus undertakes within two (2) business days of first written demand to pay to the Noteholder an amount certified from time to time in a certificate (a “**Demand Certificate**”) that:

- (i) corresponds to interest on or principal of the Notes, or any other amount capable of falling due under the Notes (including any Additional Amounts required to be paid pursuant to the terms of the Notes); and
- (ii) has not been paid on the due date (whether at maturity, upon redemption by acceleration of maturity or otherwise) by the Substituted Issuer and remains due and owing on the date of the Demand Certificate.

This Guarantee is independent and constitutes an autonomous obligation (*garantie autonome*) of the Guarantor towards the Noteholders governed by Article 2321 of the French *Code civil* and the Guarantor may not invoke any defence that the Substituted Issuer could assert against a Noteholder including the unenforceability or invalidity of any obligation of the Substituted Issuer under the Notes. The Guarantor hereby waives any requirement that the Noteholders, in the event of any default in payment by the Substituted Issuer, first makes demand upon or seeks to enforce remedies against the Substituted Issuer before seeking to enforce this Guarantee. The Guarantor also waives any consent, extension (whether express or implied) or amendment of any

of the terms of the Notes, any consolidation, merger, conveyance or transformation of the Substituted Issuer or any of its assets, or any other circumstance that might constitute a defence or discharge of a guarantor.

This Guarantee constitutes an unconditional, unsecured and unsubordinated obligation of the Guarantor and ranks and will at all times rank (save for certain exceptions required to be preferred by law) equally with all other present or future unsecured and unsubordinated indebtedness, obligations and guarantees of the Guarantor.

So long as any of the Notes or, if applicable, any Receipts or Coupons relating to them, remains outstanding (as defined in the Agency Agreement), the Guarantor will not grant any mortgage (*hypothèque*), pledge or other form of security interest (*sûreté réelle*) which is not created over cash on any of its present or future tangible assets, intangible assets or revenues in each case for the benefit of holders of other negotiable bonds, notes or debt securities it guarantees and having an original maturity of more than one (1) year, which are, or which are capable of being quoted, listed or ordinarily dealt with on any stock exchange, without granting the same ranking security to the Notes.

None of the above shall prevent the Guarantor from securing any present or future indebtedness for the benefit of holders of other negotiable bonds, notes or debt instruments it guarantees and which are, or are capable of being, quoted, listed, or ordinarily dealt with on any stock exchange, where such indebtedness is incurred for the purpose of, and the proceeds thereof are used in, (i) the purchase of an asset and such security is provided over or in respect of such asset or (ii) the refinancing of any indebtedness incurred for the purpose of (i) above, provided that the security is provided over or in respect of the same asset.

For so long as any amount remains payable in respect of the Notes, the Guarantor will not exercise any right of subrogation against the Substituted Issuer pursuant to this Guarantee or take any other action that would result in asserting claims of the Guarantor at the same time as claims of the Noteholders.

If the Guarantor should be compelled by law to make any deduction for or on account of any present or future taxes, duties, fees or imposts, of whatsoever nature, imposed or levied by French law, it shall pay, to the extent not prohibited by French law, such Additional Amounts as may be necessary in order that the Noteholders receive, after such deduction, the amount provided in such Notes to be then due and payable.

This Guarantee shall remain in full force and effect until all of the Substituted Issuer's payment obligations arising under the Notes have been fully and irrevocably performed. Upon transfer of any of the Notes, this Guarantee will automatically pass to the new holder of such Notes. This Guarantee is governed by, and shall be construed in accordance with, French law. Any claim against the Guarantor in connection with the Guarantee may be brought before any competent court located within the jurisdiction of the registered office of the Issuer. Notice of any action or proceeding may be served on the Guarantor, for the attention of: [*Chief Financial Officer*, at its registered and principal office, 1, place Samuel de Champlain, 92400 Courbevoie, France].

Terms used but not defined herein shall have the meaning given to them in the Terms and Conditions as set out in the Base Prospectus of the Issuer dated 17 May 2023 relating to the Programme.

Signed in Paris on [●] in two (2) originals, one for the Guarantor and one for the Fiscal Agent under the above referred Programme.

TEMPORARY GLOBAL CERTIFICATES ISSUED IN RESPECT OF MATERIALIZED BEARER NOTES

Temporary Global Certificate

A Temporary Global Certificate, without interest Coupons, will initially be issued in connection with Materialised Bearer Notes. Upon the initial deposit of such Temporary Global Certificate with a common depository for Euroclear and Clearstream (the “**Common Depository**”), Euroclear or Clearstream will credit each subscriber with a nominal amount of Notes equal to the nominal amount thereof for which it has subscribed and paid.

The Common Depository may also (if indicated in the relevant Final Terms) credit the accounts of subscribers with other clearing systems through direct or indirect accounts with Euroclear and Clearstream held by such other clearing systems with a nominal amount of Notes. Conversely, a nominal amount of Notes that is initially deposited with any clearing system other than Euroclear or Clearstream may similarly be credited to the accounts of subscribers with Euroclear or Clearstream or other clearing systems.

Exchange

Each Temporary Global Certificate issued in respect of Materialised Bearer Notes will be exchangeable, free of charge to the holder, on or after its Exchange Date (as defined below):

- (i) if the relevant Final Terms indicate that such Temporary Global Certificate is issued in compliance with the C Rules or in a transaction to which TEFRA is not applicable, in whole, but not in part, for Definitive Materialised Bearer Notes; and
- (ii) otherwise, for Definitive Materialised Bearer Notes upon certification in the form set out in the Agency Agreement as to non-U.S. beneficial ownership.

A Noteholder must exchange its share of the Temporary Global Certificate for definitive Materialised Bearer Notes before interest or any amount payable in respect of the Notes will be paid.

Delivery of Definitive Materialised Bearer Notes

On or after its Exchange Date, the holder of the Temporary Global Certificate must surrender such Temporary Global Certificate to or to the order of the Fiscal Agent. In exchange for the Temporary Global Certificate so surrendered, the Issuer will deliver, or procure the delivery of, an equal aggregate nominal amount of duly executed and authenticated Definitive Materialised Bearer Notes.

In this Base Prospectus, “**Definitive Materialised Bearer Notes**” means, in relation to any Temporary Global Certificate, the definitive Materialised Bearer Notes for which such Temporary Global Certificate may be exchanged (if appropriate, having attached to them all Coupons and Receipts in respect of interest or Instalment Amounts that have not already been paid on the Temporary Global Certificate and a Talon). Definitive Materialised Bearer Notes will be security printed in accordance with any applicable legal and Regulated Market or stock exchange requirements in, or substantially in, the form set out in the Schedules to the Agency Agreement.

Exchange Date

“**Exchange Date**” means, in relation to a Temporary Global Certificate, the day next succeeding the day that is forty (40) calendar days after its issue date.

USE OF PROCEEDS

An amount equal to the net proceeds of the issue of the Notes will be used (i) for the Issuer's general corporate purposes or (ii) in the case of "Green Bonds", to finance or refinance, in whole or in part, existing or future Eligible Green Projects, as defined in the relevant Final Terms and described in the Issuer's green financing framework (as may be amended and supplemented at the time of issuance of the relevant Notes) (the "**Green Financing Framework**") available on the Green bond section of the Issuer's website (<https://www.engie.com/en/finance/credit/green-finance>). If in respect of any particular issue of Notes, there is a particular identified use of proceeds (other than as specified above), this will be stated in the relevant Final Terms.

In relation to "Green Bonds", the Green Financing Framework is aligned with the four core components of the Green Bond Principles voluntary guidelines published by the International Capital Market Association or any more recent version such as specified in the relevant Final Terms (the "**GBP**"): (i) use of proceeds, (ii) process for project selection, (iii) management of proceeds and (iv) reporting. It may be further updated or expanded to reflect evolutions in market practices, regulation and in the Issuer's activities. The Green Financing Framework sets out categories of Eligible Green Projects which have been identified by the Issuer as promoting positive or reducing negative impact on the environment. The Issuer may also elect to create other categories of Eligible Green Projects in the Green Financing Framework in the future (each as defined in the Green Financing Framework) which meet a set of Technical Eligibility Criteria (as defined in the Green Financing Framework) (the "**Eligible Green Projects**").

The Issuer has appointed a third party to provide a second party opinion (the "**Second Party Opinion**") on the Green Financing Framework, assessing the green sustainability of the Green Financing Framework and its alignment with the GBP. This Second Party Opinion document is available, and any further second party opinions which may be rendered in respect of the issue of Notes within the Green Financing Framework will be available, on the Issuer's website (<https://www.engie.com/en/finance/credit/green-finance>).

Until an amount equal to the net proceeds are allocated in full to Eligible Green Projects and later in the case of any material change in the list of Eligible Green Projects, one of the external auditors of the Issuer, is expected to issue a report on (i) the compliance of projects financed by Green Bonds with Technical Eligibility Criteria defined in the Green Financing Framework, (ii) allocated amount related to the Eligible Green Projects financed by the Green Bonds proceeds; and (iii) the management of proceeds and unallocated proceeds amount.

- The *European Clean Transport Network Alliance* (ECTN Alliance) brings together best-in-class experts in logistics, transport and energy, and aims to accelerate the decarbonization of long-haul trucking in Europe.
- ECTN Alliance’s objective is to develop an unprecedented network of relay terminals for trucks strategically located on European motorways and equipped with highpower electric chargers and pumps for biogas and green hydrogen.
- When operational, the ECTN solution will address current battery capacity issues and significantly improve truck drivers’ working conditions by allowing them to travel shorter distances.
- The first test planned along SANEF motorways will start in 2023.

Three major groups are joining forces to fight climate change and launch the European Clean Transport Network Alliance (ECTN Alliance), a concrete solution to decarbonize road freight transport.

Mobilizing the expertise of its founding members—CEVA Logistics, ENGIE and SANEF—the ECTN Alliance envisions building and operating a network of truck terminals with low carbon energy solutions to transport merchandise along Europe’s motorways. The disruptive system will be tailored to electric trucks’ limited range and charging requirements.

Long term, the terminal network will be open to all shippers and carriers, offering simple access to low-carbon biogas, hydrogen and electric energy solutions for charging and refueling trucks. Strategically placed on European motorways, the network will include a specific IT solution to enable transport companies to plan their routes and charging schedules in the fastest and most carbon-efficient way.

In addition, the concept aims at improving working conditions for long-haul truck drivers by allowing them to remain closer to their homes, as they will be swapping trailers at each terminal before turning back. ECTN’s solution will ultimately make the trucking industry more attractive and help alleviate the European truck driver crisis.

The Alliance will conduct a proof of concept (POC) in 2023 between the Lille and Avignon metropolitan areas in France to demonstrate the feasibility of the concept before deploying it on a European scale.

The two-year proof of concept will start in 2023 to demonstrate the ECTN model’s effects on long-distance road haulage. A dedicated fleet of 20 low-carbon tractor units (a mix of biogas, electric and green hydrogen) will transport

20 trailers each day between the north and southeast of France, relaying and changing trailers at five test sites located at existing CEVA Logistics locations.

Local carriers will carry out the pre- and post-carriage transport to and from the test sites. The POC is expected to provide a rich database for an in-depth understanding of lowcarbon truck use for long-distance haulage and options for decarbonizing road freight transport in Europe.

Luc Nadal, Regional Managing Director for Europe, CEVA Logistics, said: *“ECTN Alliance members strongly believe that private–public alliances have a key role to play in accelerating climate solutions. The ECTN Alliance is based on a pioneering, holistic approach to decarbonizing long-haul trucking. We are proud to launch this bold initiative with best-in-class companies, whose combined expertise will contribute to the success of the project.”*

“Îles d’Yeu and Noirmoutier offshore wind farm reaches Final Investment Decision and starts construction

Ocean Winds, ENGIE’s joint venture held 50/50 with EDP Renewables and dedicated to offshore wind, announces today the final investment decision for the Îles d’Yeu and Noirmoutier project, together with its partners Sumitomo Corporation, Banque des Territoires and Vendée Energie, as shareholders of the company “Eoliennes en Mer des îles d’Yeu et de Noirmoutier” (EMYN). Located off the Vendée coast, it will be the fifth offshore wind farm to be commissioned in France from 2025.

With a total capacity of around 500 MW, the Yeu and Noirmoutier wind farm represents an investment of around €2.5 billion. The project involves the construction and installation of a wind farm located 11 km off the island of Yeu and 16 km off the island of Noirmoutier. This offshore wind farm will supply nearly 800,000 people with electricity each year, the equivalent of the population of the Vendée.

Winner in 2014 of the call for tenders launched by the French State in 2013, the project has been in development since then, implying a continuous dialogue with local elected officials, fisheries and sea users, socio-economic players and the general public. Detailed engineering studies, environmental studies and the creation of a Scientific Interest Group to follow-up the environmental impacts of the wind farm, from its construction to its exploitation, have also been carried out. The administrative authorisations were obtained in 2018.

The final investment decision opens the way for the construction phase of the project: the first offshore operations will take place this summer before the effective start of the installation works in 2024 and 2025. The wind turbines, produced by Siemens Gamesa in its Le Havre facility, will be installed during 2025. The wind farm is expected to be commissioned in the second half of 2025. The construction phase of the EMYN wind farm, which will last 2.5 years, will create 1,600 direct jobs in France.

ENGIE, through Ocean Winds, has two other wind farms under construction or ready to be built in France: the Dieppe-Le Tréport farm and the Gulf of Lion floating pilot farm. With 15 projects in 7 countries, Ocean Winds has now a portfolio of 1.5 GW of projects in operation and 15.1 GW under construction and in development. With 8 GW won in Scotland and the US in 2022, the ENGIE joint-venture has tripled the size of its project portfolio since its creation in 2020.

“We, at ENGIE, are delighted that EMYN, a flagship project for the Group, is achieving a significant development step, and will now be entering in construction phase. This offshore wind park will contribute to the development of the French offshore wind energy industry. France has an exceptional potential in terms of renewable energies, in particular thanks to its seaboards. ENGIE is strongly committed to support the country’s energy transition through responsibly conducted projects.”, says Paulo ALMIRANTE, ENGIE Senior Executive Vice President Renewables, Energy Management and Nuclear Activities.”

“ENGIE launches an operation to support its small- to medium-sized suppliers in reducing their carbon emissions, in partnership with Bpifrance and ADEME

ENGIE commits to the decarbonisation of its small- to medium-sized suppliers. In partnership with Bpifrance and ADEME, ENGIE is offering 1,000 of its very small, small and medium-sized suppliers and subcontractors the chance to take part in the Diag Décarbon’Action initiative.

Diag Décarbon’Action, run by Bpifrance and codesigned with ADEME in partnership with the Association for the Low-Carbon Transition, aims to support companies in:

- carrying out a greenhouse gas audit (direct and indirect emissions)
- jointly building their transition plan to control the direct and indirect impact of their activity on the environment
- promoting their commitment to their stakeholders.

Over a period of approximately 12 days spread over 6 to 8 months, decarbonisation plans are developed by independent consultancy firms, equipped and led by a dedicated team within Bpifrance with the technical support of the Association for the Low-Carbon Transition and ADEME, which also subsidises this scheme.

Diag Décarbon’Action is part of a joint ADEME-Bpifrance programme bringing together a range of financing and support solutions for green transition projects for companies. The ambition of this joint programme is to get all business leaders to rapidly and sustainably embrace a dynamic of change, thus accelerating the transition of the French economy while optimising the use of State resources.

ENGIE is studying the possibility of launching similar initiatives in other European countries, notably Italy, Romania, Germany and Spain. As part of its climate strategy, ENGIE is also committed to supporting its top 250 preferred suppliers, so that they are all certified or aligned with the Science Based Targets initiative by 2030.

Quote from Catherine MacGregor, Chief Executive Officer of ENGIE

“I am delighted with this joint initiative with Bpifrance and ADEME, which is fully in line with ENGIE’s climate strategy and its target of achieving Net Zero Carbon throughout its value chain by 2045. At ENGIE, we are convinced that the energy transition to a decarbonised world can only be achieved with all our stakeholders on board. As a large industrial group, we have a special responsibility towards our suppliers and subcontractors, in particular very small to medium-sized companies, to help them initiate the decarbonisation of their businesses. This contributes to our efforts to make our procurement policy more inclusive.”

Quote from Nicolas Dufourcq, CEO of Bpifrance

“According to a recent Bpifrance Le Lab survey¹, 67% of the leaders of small to mid-sized businesses questioned say they will pay attention to environmental issues in 2023, compared with only 31% in 2020. It is our duty to help them adapt to meet this challenge and remain globally competitive,” says Nicolas Dufourcq, CEO of Bpifrance. “This partnership with ENGIE is naturally in line with our goal at Bpifrance, the climate bank, to support the energy and ecological transition of 20,000 companies. It encourages us to continue our door-to-door mass deployment of Diag Décarbon’Action, jointly built with our partners ADEME and the Association for the Low-Carbon Transition.”

Quote from Boris Ravignon, Chairman – CEO of ADEME

“After having created Diag Décarbon’Action with our partner Bpifrance, we are delighted to see players such as ENGIE taking it up and getting its entire value chain on board in the ecological and energy transition. ADEME, the French Agency for Ecological Transition, built this programme with exactly this sort of leverage in mind, and we strongly hope that it will encourage other flagships of the French economy to join the adventure.”

“ENGIE announces the Financial Close of Moray West offshore wind farm in Scotland

ENGIE, through its joint venture Ocean Winds held 50/50 with EDP Renewables and dedicated to offshore wind, announces the financial close for Moray West Offshore wind farm with £2bn of non-recourse project finance secured. Moray West, localized in the Moray Firth, Scotland, represents a 882 MW installed capacity with 60 turbines.

Moray West is the first UK offshore wind farm to rely in majority on corporate power purchase agreements (CPPAs) for the commercialisation of its output. CPPAs were signed with long-term strategic partners, for more than 50% of the project’s output and represent the largest contracts of their kind implemented in the UK market to date. A Contract for Difference was secured for a third of the installed capacity to commercialise the remainder of the project’s output.

The construction of the farm had already started, allowing the local supply chain to be established, including the use of the Scottish ports of Invergordon, Nigg and Buckie as the operations and maintenance base. The construction phase of the Moray West wind farm will create 1,000 direct jobs in the UK. Financial Close allows the project to move to secure the remaining elements of supply chain activity in preparation for offshore installation works in later 2023.

Moray West remains on track to reach full capacity by 2025, supporting the UK and Scottish renewable energy targets and providing the equivalent of 1.3 million households a year with access to long-term, low-cost, low-carbon electricity.

ENGIE, through Ocean Winds, owns a 6.1 GW of portfolio in the UK, all in the Scottish waters. In addition to the 882-MW Moray West windfarm under construction and the 950 MW Moray East already in operation since 2022, Ocean Winds was awarded the rights to develop the Caledonia Offshore Wind Farm (around 2 GW) and two floating projects east of Shetland, totalling 2.3 GW.

With 15 projects in 7 countries, Ocean Winds has now a portfolio of 1.5 GW of projects in operation and 15.1 GW under construction and in development in the world. The ENGIE joint-venture has tripled the size of its project portfolio since its creation in 2020.

“We are delighted that a project as important and strategic as Moray West is achieving financial close. Alongside the neighbouring Moray East offshore wind farm, Moray West contributes to the responsible development of the UK offshore wind industry and will play a key role in providing renewable electricity to companies and a large number of households”, says Paulo ALMIRANTE, ENGIE Senior Executive Vice President Renewables, Energy Management and Nuclear.”

“ENGIE General Shareholders’ Meeting on April 26 2023

- **Approval of all resolutions supported by the Board of Directors**
- **Re-appointment of Ms Marie-José Nadeau and Mr Patrice Durand as directors**
 - **Appointment of Ms Lucie Muniesa as a director**
 - **Debate with shareholders on the climate strategy**
- **Rejection of a resolution submitted by a coalition of investors seeking to amend the bylaws, not supported by the Board of Directors**
 - **Payment of a dividend of €1.40 per share on May 3rd**

The ENGIE General Shareholders’ Meeting was held on 26 April 2023 at the Centre des Congrès de la Cité des Sciences et de l’Industrie in Paris, under the chairmanship of the Chairman of the Board of Directors Jean-Pierre Clamadieu. This was an opportunity for dialogue with shareholders, both present physically and remotely.

With a quorum of 74,55 %, the Shareholders’ Meeting approved all resolutions supported by the Board of Directors.

The Shareholders’ Meeting renewed the four-year term of office of Ms Marie-José Nadeau as an independent director and the term of office of Mr Patrice Durand as a State-nominated director. It also approved the appointment of Ms Lucie Muniesa as a State-nominated director for a four-year term.

Ms Lucie Muniesa has an extensive experience in the public and private sectors. She is currently Director of Sustainable Development, Compliance and Institutional Affairs and a member of the executive committee at Paprec Group. Her expertise in sustainable development and corporate finance, and her detailed knowledge of ENGIE, will be invaluable to the Group’s Board of Directors.

The Board of Directors expressed its thanks to Ms Mari-Noëlle Jégo-Laveissière, who did not seek reappointment, and its gratitude to Ms Françoise Malrieu, whose term of office as an independent director has ended, for her commitment over the past 12 years.

The Board of Directors is now composed of 14 members. The proportion of female directors is 50% and the proportion of independent directors is 60%.

At the meeting, Catherine MacGregor, Chief Executive Officer, detailed the Group’s climate plan implementation and discussed it with shareholders through a debate specifically devoted to this subject.

The Chairman of the Board of Directors reiterated the Group’s commitment to transparent and indepth dialogue on climate issues with its stakeholders throughout the year, based on information which will be progressively harmonised under the Corporate Sustainability Reporting Directive. ENGIE has already increased the level of information disclosed in its TCFD1 report, included in the integrated report.

The Chairman of the Board of Directors also reiterated the Board’s commitment to consult shareholders on the climate strategy every three years, or in the event of a significant strategy change, and to include this strategy implementation on the agenda of each Shareholders’ Meeting followed by a debate.

The agenda also included a resolution on the climate strategy proposed by a coalition of investors and seeking to amend the bylaws. While the Board of Directors is committed to quality dialogue, it felt that it was not necessary to amend the Group’s bylaws to find ways of organising this dialogue, and it did not support this resolution. The resolution was rejected by 75,62 % following the recommendation of the Board of Directors.

The Shareholders’ Meeting results of the votes and the replay of the Shareholders’ Meeting will be made available shortly on the www.engie.com website.”

“ENGIE reaches Final Investment Decision for its Dieppe-Le Tréport offshore wind farm

The Group has now 1 GW of offshore wind projects in construction phase in France.

ENGIE, through Ocean Winds, the joint venture held 50/50 with EDP Renewables and dedicated to offshore wind, announces the final investment decision for the Dieppe-Le Tréport project, together with its partners Sumitomo Corporation and Banque des Territoires, shareholders of the company “Eoliennes en Mer DieppeLe Tréport” (EMDT). Located off the coast in the English Channel, it will be the sixth offshore wind farm to be commissioned in France from 2026.

With 62 wind turbines for a total capacity of around 500 MW, the Dieppe-Le Tréport wind farm represents an investment of around €2.7 billion. The project involves the construction and installation of a wind farm located 15 km off Le Tréport city and 17 km off Dieppe city. This offshore wind farm will supply nearly 850,000 people with electricity each year, the equivalent of 2/3 of the inhabitants of the Seine-Maritime department area.

The final investment decision opens the way for the manufacturing and construction phase of the project. From 2024, maritime work will start by the installation of the piles. At the same time, RTE will set up a double submarine connection to transfer the electricity generated at sea to the onshore grid. The installation of the jackets and the electrical substation built by Chantiers de l'Atlantique in Saint-Nazaire will follow. The wind turbines, produced by Siemens Gamesa in its Le Havre facility, will be installed by Jan de Nul Group.

The construction phase of the EMDT wind farm will last 3 years and create 1,300 direct jobs in France. The wind farm is expected to be commissioned in the second half of 2026.

Winner in 2014 of the call for tenders launched by the French State in 2013, the project has been in development since then, implying a continuous dialogue with local elected officials, fisheries and sea users, socio-economic players and the general public. Detailed engineering studies, environmental studies and the creation of a Scientific Interest Group to follow-up the environmental impacts of the wind farm, from its construction to its exploitation, have also been carried out. The administrative authorizations were obtained in 2019.

ENGIE, through Ocean Winds, has now three wind farms under construction in France for a total capacity of 1 GW: the Iles d'Yeu et de Noirmoutier farm, the Dieppe-Le Tréport farm and the Gulf of Lion floating pilot farm. With 15 projects in 7 countries, Ocean Winds has now a portfolio of 1.5 GW of projects in operation and 15.1 GW under construction and in development. With 8 GW won in Scotland and the US in 2022, the ENGIE joint-venture has tripled the size of its project portfolio since its creation in 2019.

“We are delighted that a project as strategic as Dieppe-Le Tréport reaches final investment decision. Our 3 projects located in France are now in construction phase. They will contribute to the development of the French offshore wind industry, creating jobs and activity locally. They will play a key role in providing renewable electricity to a large number of households and increasing our energy sovereignty”, says Paulo ALMIRANTE, ENGIE Senior Executive Vice President Renewables, Energy Management and Nuclear.”

Catherine MacGregor, CEO, said: “*ENGIE has made a good start to 2023 with a solid operational performance leading to an EBIT up 29% organically. Our integrated model has once again demonstrated its ability to leverage on favourable market conditions. In the first quarter, we have continued to move at pace with our strategic plan. We had 5.5 GW of renewable projects under construction at the end of March including flagship projects such as the Gulf of Suez 2 in Egypt. In offshore, we have launched the construction of Moray West in Scotland and reached the final investment decision of major French wind farms, thus contributing to Europe’s ambitions to strengthen its energy sovereignty. For the full year, taking into account the strong performance in the first quarter, we now expect our financial results to be in the upper end of the guidance.*”

2023 guidance confirmed with NRIGs expected in the upper end of the range

The guidance is maintained in a context of decreasing volatility and energy prices as well as an uncertain macroeconomic environment. Based notably on GEMS's strong performance in Q1 2023, the Net Recurring Income group share (NRIGs) is expected to be in the upper end of the range of €3.4 to €4.0 billion. EBIT excluding Nuclear is expected to be in the top end of the indicative range of €6.6 to €7.6 billion.

ENGIE is committed to a "strong investment grade" credit rating and continues to target a ratio below or equal to 4.0x economic net debt to EBITDA over the long-term. The Group reaffirms its dividend policy, with a 65% to 75% payout ratio based on NRIGs, and a floor of €0.65 per share for the 2023 to 2025 period.

Detailed guidance key assumptions are on appendix 3.

Progress on the execution of strategic plan

Acceleration in Renewables

ENGIE added 0.4 GW of renewable capacity in Q1 2023, including 0.2 GW in Peru and 0.1 GW in France, and signed 0.5 GW of PPA, of which 0.4 GW with a duration longer than 5 years.

The Group is on track to add 4 GW on average per year of renewable capacity until 2025. As at 31 March 2023, ENGIE reported 5.5 GW of capacity under construction from 71 projects. It includes major projects such as the 500 MW Gulf of Suez wind farm in Egypt and the Moray West offshore wind farm in Scotland, representing 882 MW installed capacity.

Ocean Winds, ENGIE's joint venture with EDPR dedicated to offshore wind, announced several achievements in April, including the final investment decision for the Iles d'Yeu and Noirmoutier offshore wind farms with a total capacity of around 500 MW, and for Dieppe-Le Tréport offshore wind farm with a capacity of close to 500 MW. ENGIE also completed the financial close of Moray West offshore wind farm in Scotland previously mentioned.

Energy Solutions

Energy Solutions has achieved major wins in District Heating and Cooling (DHC) and sustainable mobility. Districlima Barcelona has been awarded an 8-year contract including the financing, design, construction and operation of a new cold 28 MW production plant, as the existing DHC network has already reached the expected maximum demand. In Toulouse, ENGIE has been awarded a 25-year heating and cooling network solution including deep geothermal energy with a total of 50 MW of installed capacity, aimed to save 243,000 tonnes of CO₂ over the duration of the contract, equivalent to 205,000 fewer diesel or gasoline vehicles from the streets of Toulouse. Other significant DHC contracts in France include extensions in Amiens and Versailles. In France, a contract with B&B Hotels has been awarded for the installation of 4,200 electric vehicle charging points.

Networks and renewable gases

In Brazil, the two power transmission lines, Gralha Azul (~900 kms) and Novo Estado (~1,800 kms), reached full commissioning.

During the months of March and April 2023 in France, the national strikes related to pension reforms had an adverse impact on ENGIE's LNG terminals, resulting in lower utilization rates compared to the first quarter of 2022. Gas storage levels in France were filled at 30% as of 31 March 2023, compared to 23% on 31 March 2022, representing a satisfactory rate for this period of the year.

ENGIE continues to unlock the potential of biomethane with a yearly production capacity of up to 9.1 TWh connected to ENGIE's networks in France, an increase of 2.5 TWh compared to Q1 2022.

Battery Energy Storage Systems (BESS)

ENGIE is deploying batteries as crucial assets to support the energy transition providing flexibility to the energy systems. As of 31 March 2023, ENGIE has more than 1 GW of BESS under construction, mainly in the US, followed by Chile and Australia.

Disciplined capital allocation

In Q1 2023, gross Capex amounted to €1.4 billion. Growth Capex reached €0.9 billion, of which 55% dedicated to Renewables, 20% to Networks and 12% to Energy Solutions, in line with ENGIE's strategic roadmap.

Performance plan delivery

ENGIE maintained strong momentum towards operational excellence in Q1 2023, with the target of €0.6 billion for the period 2021-23 of net EBIT contribution close to completion.

Update on Belgian nuclear assets and liabilities

On 9 January 2023, ENGIE and the Belgian government signed an agreement in principle to extend the operational lifetime of the Doel 4 and Tihange 3 reactors. Since then, intensive discussions have been held and progress has been made on:

- the establishment of a legal structure dedicated to the two extended nuclear units, equally owned by the Belgian State and ENGIE;
- the business model of the extension with balanced risks allocation;
- and the joint Development Agreement.

In addition, in relation to all ENGIE's nuclear liabilities in Belgium, the legal framework for the transfer of waste management and the relevant security package have been clarified.

Despite this progress, some important parameters of the agreement still need to be finalized between the two parties.

ENGIE keeps working constructively with the Belgian government on the project to extend the two reactors with the aim to sign a definitive agreement by 30 June 2023. The timely signing of this agreement is on the critical path to achieve the restart of the two units from November 2026 given the industrial and operational complexity of the extension project.

Q1 2023 financial review

Revenue at €29.2 billion was up 14.0% on a gross basis and 14.2% on an organic basis.

EBITDA at €5.4 billion, was up 16.9% on a gross basis and up 16.2% on an organic basis.

EBITDA (ex. Nuclear) at €4.8 billion, was up 22.8% on a gross basis and up 21.9% on an organic basis.

EBIT (ex. Nuclear) at €3.8 billion was up 29.8% on a gross basis and up 28.8% on an organic basis.

- **Foreign exchange:** a total positive effect of €15 million mainly driven by the appreciation of the Brazilian real and the US dollar partly offset by the depreciation of the UK pound sterling.
- **Scope:** positive scope effect of €8 million mainly due to the acquisition of Eolia in Spain in May 2022.
- **French temperature:** compared to average, the temperature effect stood at negative €95 million, generating a positive year-on-year variation of €10 million compared to Q1 2022 across Networks, Retail and GEMS in France.

EBIT contribution by activity: EBIT growth mainly driven by GEMS and Renewables

Nuclear	389	583	-33.3%	-33.3%	
EBIT	4,216	3,532	+19.4%	+18.6%	+10

Renewables reported strong growth following the improvement in European hydro and commissioning, partly offset by lower DBSO margins

Renewables reported a 31.3% organic EBIT growth, benefiting from better hydro volumes in Portugal and France, higher prices in Europe (mainly for French hydro) and contribution of new capacity commissioned. These positive effects were only partly offset by lower DBSO⁴ margins.

Networks: lower distributed volumes partly offset by higher prices in gas transport in Germany

EBIT was down 6.0% on organic basis due to lower distributed volumes in France driven by lower gas consumption, lower gas transports in Germany and higher energy costs. These negative effects were partly offset by price increases in gas transport in Germany, organic growth in Latin America driven by inflation-indexed assets and growth from operations, as well as a favourable environment in the storage activities in the UK and Germany.

Energy Solutions: strong growth fueled by developments and performance despite headwinds from strikes in France and energy prices evolution in Europe

Energy Solutions reported a positive 11.5% organic EBIT variation mainly due to strong operational performance, margin improvements and increasing contribution from new capacity, partly offset by the negative impact of strikes in France in District Heating and net negative effect of energy prices in Europe.

Flex Gen: higher spreads captured by flexible assets in Europe partly offset by a negative one-off and lower ancillaries

Organic EBIT growth increased by 2.3% driven by price effects mainly from higher spreads from European assets and energy margin recovery of Chile. These positive effects were partly offset by a negative one-off due to the Pakistan rating downgrade and lower ancillaries.

Retail: negative effect linked to climate following Q1 2022 long gas position sold at high prices partly offset by higher margins in Romania

EBIT amounted to €89 million. Organically, the EBIT decrease was driven by a long gas position in Q1 2023 due to mild weather sold at low prices in contrast with the opposite effect of Q1 2022 when the long gas position was

monetized in exceptional market conditions. These negative effects were partly offset by higher margins in Romania, negatively impacted in Q1 2022 by the price cap mechanism.

Others: significant contribution from GEMS in a still favourable market

GEMS EBIT amounted to €1,606 million, up €980 million year-on-year, driven by:

- Negative impact in Q1 2022 related to Gazprom contracts considering the risk of physical gas disruption, which did not repeat in Q1 2023
- A normalization of market conditions leading to reversal of market reserves
- A continued effect of deals signed in 2022 at good conditions which materialize at delivery date, as well as solid performance from energy management activities in Europe

Compared to Q1 2023, GEMS contribution for the next quarters is expected to gradually decrease due to the combination of non-replicable impacts as well as the contribution from transactions locked in 2022 which is expected to normalize in the future.

Nuclear: lower volumes and impact from inframarginal rent caps partly offset by higher captured prices

Nuclear reported a negative 33.3% organic EBIT variation driven by lower volumes, despite higher availability rates (97.5%)⁵ explained by the phase out of the two reactors Doel 3 in September 2022 and Tihange 2 in February 2023. The higher achieved prices were more than offset by the combination of inframarginal tax in Belgium and the Belgian nuclear tax (G2). And D&A have also increased year on year.

Strong balance sheet and liquidity framework

Cash Flow From Operations amounted to €3.8 billion, up €3.8 billion compared to Q1 2022. This increase was mainly supported by EBITDA growth (+€0.8 billion) and improvement in Working Capital Requirements (+€3.1 billion).

Working Capital Requirements were negative at €(1.2) billion, with a positive variation year on year of +€3.1 billion mainly driven by positive margin calls (+€1.8 billion), gas withdrawal at higher prices (+€1.2 billion) as well as the net positive timing effect on tariff shields mainly in France (€+0.5 billion).

Liquidity stood at €24.0 billion, including €18.0 billion of cash⁶. The Group maintained a strong level of liquidity by implementing dedicated management actions.

Net financial debt stood at €22.6 billion down €1.4 billion compared to 31 December 2022.

This decrease was mainly driven by:

- Cash Flow From Operations of €3.8 billion,
- disposals of €0.1 billion.

These positive elements were partly offset by:

Contributive revenue, after elimination of intercompany operations, by activity:

Nuclear	37	(16)	-	-
ENGIE	29,180	25,596	+14.0%	+14.2%

Revenue for **Renewables** amounted to €1,558 million, up 17.4% on a gross basis and up 15.2% organically. The gross increase included foreign exchange effects mainly from the appreciation of the Brazilian real against the euro. On an organic basis, revenue growth was mainly driven by higher hydro prices and volumes in France.

Revenue for **Networks** amounted to €2,122 million, up 1.2% on a gross basis and up 1.3% organically. The gross increase included favourable foreign exchange effects in Latin America. French infrastructures revenue rose driven by transit volumes from France to Germany and Storage activities partially compensated by a decrease in distributed volumes in France.

Revenue for **Energy Solutions** amounted to €3,382 million, up 7.0% on a gross basis and up 11.0% organically. The gross increase included favourable foreign exchange effects mainly related to US Dollar and a negative scope effect related to the disposal of Endel. Organically, revenue increased primarily in France and Germany with positive impact from commodity prices and additional volumes.

Revenue for **Flex Gen** amounted to €1,512 million, down 15.9% on a gross basis and down 16.7% organically. The gross decrease included favourable foreign exchange effects mainly related to the US Dollar. The organic performance is mainly driven by lower power generation in Europe. Latin America shows a positive growth thanks to the indexation of PPA contracts in Chile.

Revenue for **Retail** amounted to €7,354 million, up 41.3% on a gross basis and organically. Organically, the increase was mainly driven by increasing commodity prices partly offset by negative volume effect mainly due to warmer temperature in Europe.

Revenue for **Others** amounted to €13,216 million, up 9.9% on a gross basis and up 9.6% organically, mainly driven by GEMS (€13,191 million). The increase compared to last year is essentially impacted by the increase in commodity prices more than offsetting lower traded volumes.

Nuclear reported almost no external revenue post-elimination of intercompany operations, as its production was sold internally to other ENGIE businesses.

The calculation of organic growth aims to present comparable data both in terms of the exchange rates used to convert the financial statements of foreign companies and in terms of contributing entities (consolidation method and contribution in terms of comparable number of months). Organic growth in percentage terms represents the ratio between the data for the current year (N) and the previous year (N-1) restated as follows:

- The N-1 data is corrected by removing the contributions of entities transferred during the N-1 period or prorata temporis for the number of months after the transfer in N.
- The N-1 data is converted at the exchange rate for the period N.
- The N data is corrected with the N acquisition data or prorata temporis for the number of months prior to the N-1 acquisition.

Other recent developments:

It is specified that on 4 January 2023, ENGIE successfully closed a triple-tranche Green Bond issuance for a total amount of €2.75 billion. The respective terms of the tranches are the following:

SUBSCRIPTION AND SALE

Summary of Dealer Agreement

Subject to the terms and on the conditions contained in an amended and restated dealer agreement dated 17 May 2023 (the “**Dealer Agreement**”) between the Issuer, the Permanent Dealers and the Arranger, the Notes will be offered on a continuous basis to the Permanent Dealers. The Issuer will enter into a supplement to the Dealer Agreement in connection with the issue by it of any Notes. The Issuer has reserved the right to sell Notes directly on its own behalf to Dealers that are not Permanent Dealers. The Notes may be resold at prevailing market prices, or at prices related thereto, at the time of such resale, as determined by the relevant Dealer. The Notes may also be sold by the Issuer through the Dealers, acting as agents of such Issuer. The Dealer Agreement also provides for Notes to be issued in syndicated Tranches that are jointly and severally underwritten by two or more Dealers.

The Issuer will pay each relevant Dealer a commission as agreed between them in respect of Notes subscribed by it. The Issuer has agreed to reimburse the Arranger for certain of its expenses incurred in connection with the establishment of the Programme and the Dealers for certain of their activities in connection with the Programme. The commissions in respect of an issue of Notes on a syndicated basis will be stated in the relevant Final Terms.

The Issuer has agreed to indemnify the Dealers against certain liabilities in connection with the offer and sale of the Notes. The Dealer Agreement entitles the Dealers to terminate any agreement that they make to subscribe Notes in certain circumstances prior to payment for such Notes being made to the Issuer.

Selling Restrictions

United States

The Notes have not been and will not be registered under the U.S. Securities Act of 1933, as amended (the “**Securities Act**”), nor with any securities regulatory authority of any State or other jurisdiction of the United States, and may not be offered or sold within the United States, or to, or for the account or benefit of, U.S. persons (as defined in the Securities Act) except in certain transactions exempt from the registration requirements of the Securities Act and in compliance with any applicable State securities laws.

Materialised Bearer Notes are considered bearer notes under U.S. tax law which are subject to U.S. tax law requirements and may not be offered, sold or delivered within the United States or its possessions, or to a United States person except in certain transactions permitted by U.S. tax regulations. Terms used in this paragraph have the meanings given to them by the U.S. Internal Revenue Code of 1986 and Treasury regulations thereunder.

Each Dealer has represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree, that, except as permitted by the Dealer Agreement, it has not offered, sold or, in the case of Materialised Bearer Notes, delivered and will not offer, sell or, in the case of Materialised Bearer Notes, deliver, Notes of any Tranche, (i) as part of their distribution at any time or (ii) otherwise until forty (40) calendar days after completion of the distribution of such Tranche within the United States or to, or for the account or benefit of, U.S. persons, and it will have sent to each Dealer to which it sells Notes during the distribution compliance period a confirmation or other notice setting out the restrictions on offers and sales of the Notes within the United States or to, or for the account or benefit of, U.S. persons substantially to the following effect:

“The Notes covered hereby have not been registered under the U.S. Securities Act of 1933, as amended (the “**Securities Act**”) and may not be offered and sold within the United States or to, or for the account or benefit of, U.S. persons (i) as part of their distribution at any time or (ii) otherwise until forty (40) calendar days after the later of the commencement of any Tranche of the Notes and the completion of the distribution of such Tranche, except in either case in accordance with Regulation S under the Securities Act under the Securities Act (“**Regulation S**”). Terms used above have the meanings given to them by Regulation S.”

The Notes are being offered and sold outside the United States to non-U.S. persons in compliance with Regulation S under the Securities Act (“**Regulation S**”) and U.S. tax law.

In addition, until forty (40) calendar days after the later of the commencement of the offering of any Tranche of Notes and the closing date, an offer or sale of Notes within the United States by any dealer (whether or not participating in the offering) may violate the registration requirements of the Securities Act if such offer or sale is made otherwise than in accordance with an available exemption from registration under the Securities Act.

This Base Prospectus has been prepared by the Issuer for use in connection with the offer and sale of the Notes outside the United States. The Issuer and the Dealers reserve the right to reject any offer to purchase the Notes, in whole or in part, for any reason. This Base Prospectus does not constitute an offer to any person in the United States or to any U.S. person. Distribution of this Base Prospectus by any non-U.S. person outside the United States to any other person within the United States, other than those persons, if any, retained to advise such non-U.S. person with respect thereto, is unauthorised and any disclosure without the prior written consent of the Issuer or any of its contents to any such U.S. person or other person within the United States, other than those persons, if any, retained to advise such non-U.S. person, is prohibited.

Terms used in this paragraph have the meanings given to them by Regulation S.
